June 17, 2014

To: The Village President, Members of the Village Board of Trustees, and Citizens of the Village of Gilberts, Illinois.

Illinois State Law requires that all general-purpose local governments publish a complete set of financial statements within six months of the close of the fiscal year. These financial statements must conform to generally accepted accounting principles (GAAP), and be audited in accordance with generally accepted accounting standards by certified public accountants licensed by the State of Illinois. It is with pleasure that the Comprehensive Financial Annual Report (CAFR) for the Village of Gilberts, Illinois is presented for the year ended April 30, 2014.

The 2014 CAFR complies with the new financial reporting model developed by the Governmental Accounting Standards Board (GASB) and is intended to provide additional information not previously available in the Village's financial statements.

The comprehensive annual financial report consists of the Village of Gilberts management staff's representations concerning the finances of the Village. Management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management has continued to focus on the internal controls that are designed to protect the Village's assets from loss, theft or misuse and to compile sufficiently reliable information for the preparation of the Village's financial statements in conformity with GAAP.

Management continues to revise processes, implement internal controls, and establish new financial policies that allow us to successfully address the prior years' accounting issues and meet the required deadline for the issuance of this fiscal year's report. Management asserts that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Fiscal Management

Annually the Village adopts a budget that defines its legal spending authority. Departments submit requests to the Village Administrator so that a budget may be prepared. The requested budget document is prepared by fund, function, and activity. The budget is presented to the Village Board for review. The Village Board holds a public hearing and adjusts the requested budgeted amounts to reflect anticipated operations and capital spending for the delivery of services offered by the Village. The Village's budget is adopted no later than April 30th, the close of the preceding fiscal year.

The Village of Gilbert's financial statements have been audited by Lauterbach and Amen, LLP, a firm licensed by the State of Illinois as certified public accountants with specialization in local government accounting. The goal of the independent audit is to provide reasonable assurance that the financial statements of the Village of Gilberts are free from material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures shown in these financial statements; assessing the accounting principles and significant estimates used; and evaluating the overall financial statement presentation. In addition, the auditors prepared a list of management comments which outline areas where the Village management can further improve internal controls and accounting procedures. The administration, along with the finance department, appreciates and welcomes the auditors' recommendations for internal control improvement and looks forward to executing their recommendations.

Fiscal Report

The independent auditor concluded that there was a reasonable basis for rendering an unmodified opinion that the Village of Gilberts' financial statements for the fiscal year ended April 30, 2014, are fairly presented in conformity to GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The financial reports are presented in accordance with the new reporting model requirements (commonly referred to as "GASB 34"). GAAP require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of a Management Discussion and Analysis (MD&A). This letter of transmittal will not repeat the financial overview and analysis which is provided in the MD&A, but encourages the reader to review this important section of the financial statements for a comprehensive overview and analysis of how the Village has faired over the last fiscal year.

Village Profile

The Village of Gilberts was platted in 1855 and incorporated in 1890 and has a population of 6,879 at the 2010 census. The Village is located in Kane County and governed by a Village President and Board of Trustees. The Village's policies are set by the Village President and the Village Board. The Village Administrator is responsible for implementing the policies and directives of the Village President and the Village Board.

The Village provides a full range of services. Gilberts' public safety activities include police protection and a neighborhood watch program. Public works provides street and right-of-way maintenance and repair, as well as building maintenance, and park maintenance. Water service including a treatment plant, sanitary sewer service and a sanitation treatment plant are functions which are included in the Water and Sewer enterprise fund.

The Village also assists with various community events, which are blended into the Village's departmental program budgets. These include the annual Easter Egg Hunt, Halloween Bonfire and Community Days celebration. In addition, the Village is accountable for the Gilberts Police Pension Fund, managed by a legally separate Board, and three Special Service Areas which are administered by independent Trustees (Wells Fargo and Amalgamated Bank of Chicago).

Economic Condition and Outlook

The Village continues to maintain a tenuous financial position with slow revenue growth. This trend has been evident over the last several years and results mainly from the increased emphasis on infrastructure improvements, stagnant residential growth, and the lack of new revenue sources.

The current economic downturn has significantly impacted State Income Taxes, Sales Taxes, and other user fees. Actual General Fund revenues exceeded final adjusted budget due to a slight increase in new building permits and receipt of a state grant covering work done in 2009 on the Hennessey Court culverts.

Financial Planning and Relevant Financial Policies

During the budget cycle, the Village Board reviewed the current Fund Balance/Net Assets Policy as it pertains to Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. This policy establishes a minimum level at which the projected end-of-year fund balance/net assets must observe as a result of the constraints imposed upon the resources reported. The Village Board set a fund balance target of no less than three months and no more than six months of operating expenditures. This will assist in providing available funds for any shortfalls in revenue and/or any unanticipated large expenditures. At the close of the fiscal year we were able to set aside additional monies to meet our target fund balance.

Major Initiatives

New Development

The Village has been assisting a new developer to revitalize the Conservancy project which was dormant due to the Neumann Bankruptcy. Phase one of the development consists of 123 single family lots. The first homes are planned to be constructed in the fall of 2014.

Town Square Park Improvements

The park was upgraded with electricity to support multiple community activities and community organizations.

Ba/Ra Removal at the Water Plant

The Village started implementation of a barium removal system to comply with a new unfunded mandate and environmental regulation which is required to be operational August 1, 2014.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Village of Gilberts for the fiscal year ended April 30, 2013. This was the third year the Village received such a prestigious award.

A Certificate of Achievement is valid for a period of one year. We believe that our report meets the requirements of the Certificate of Achievement Program and, and we are submitting it to the GFOA to determine its eligibility for a certificate. It is our hope that the Village of Gilberts' Finance Department staff will continually meet the level of excellence required to be granted this award for many years in the future. In addition to the Certificate of Achievement for Excellence in Financial Reporting, the Village of Gilberts also received an award for the Popular Annual Financial Report for the fiscal year ended April 30, 2013. This was the third year the Village received this award also.

The Government Finance Officers Association of the United States and Canada (GFOA) awards a Certificate of Achievement for Excellence in Financial Reporting to those government entities who publish an easily readable and efficiently organized Comprehensive Annual Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

Acknowledgements

The preparation of this report, and the confidence with which it is presented, would not have been possible without the dedicated services of the Finance staff and our independent auditors Lauterbach and Amen, LLP.

In closing, we would also like to thank the President and the Board of Trustees, and all department heads for their support in maintaining the highest standards of professionalism in the management of the Village's finances.

Respectfully submitted,

Kay Kille

INDEPENDENT AUDITORS' REPORT

June 17, 2014

The Honorable Village President Members of the Board of Trustees Village of Gilberts, Illinois

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Gilberts, Illinois, as of and for the year ended April 30, 2014, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Village's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Gilberts, Illinois, as of April 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Village of Gilberts, Illinois June 17, 2014 Page 2

Other Matters

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents and budgetary information reported in the required supplementary information as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Gilberts, Illinois', financial statements as a whole. The introductory section, combining and individual fund financial statements and schedules, supplemental schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements.

The combining and individual fund financial statements and schedules and supplemental schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules and supplemental schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Lauterbrich + AmenillP

LAUTERBACH & AMEN, LLP

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis April 30, 2014

Our discussion and analysis of the Village of Gilberts' financial performance provides an overview of the Village of Gilberts' financial activities for the fiscal year ended April 30, 2014. Please read it in conjunction with the Village of Gilberts' transmittal letter beginning on page iii and the financial statements, which begin on page 3.

FINANCIAL HIGHLIGHTS

- During the year, the governmental funds reported revenues in excess of expenditures by \$916,326. During the year the Village received a grant in the amount of \$350,000 for costs incurred in 2009 for repair of the culverts on Hennessey Court. In addition, the Village received \$480,000 from the developer of the Conservancy Property to be used to pay tax certificates in FY-15 as part of the restructuring of the Neumann bankruptcy. This is a strictly a pass thru transaction that does not affect any Village liabilities. The General Fund reported an ending fund balance of \$3,989,807, an increase of 28.1% or \$875,222 which included a transfer from motor fuel tax for partial payment of the road bond payment and a transfer from motor fuel tax for partial payment.
- Revenues for the year for business-type activities totaled \$1,365,338. Operating expenses (including depreciation) totaled \$1,435,310, resulting in a loss of \$69,972. The Village started implementation of a barium removal system to comply with new unfunded mandates and environmental regulations which is required to be operational August 1, 2014.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net position and the Statement of Activities (on pages 3 - 6) provide information about the activities of the Village of Gilberts as a whole and present a longer-term view of the Village of Gilberts' finances. Fund financial statements begin on page 7. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the Village of Gilberts' operation in more detail than the government-wide statements by providing information about the Village of Gilberts' most significant funds. The remaining statements provide financial information about activities for which the Village of Gilberts acts solely as a trustee or agent for the benefit of those outside of the government.

Government-Wide Financial Statements

The government-wide financial statements provide readers with a broad overview of the Village of Gilberts' finances, in a matter similar to a private-sector business. The government-wide financial statements can be found on pages 3 - 6 of this report. The Statement of Net position reports information on all of the Village of Gilberts' assets and liabilities, with the difference between the two reported as net position.

Management's Discussion and Analysis April 30, 2014

USING THIS ANNUAL REPORT – Continued

Government-Wide Financial Statements - Continued

Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Village of Gilberts is improving or deteriorating. Consideration of other nonfinancial factors, such as changes in the Village of Gilberts' property tax base and the condition of the Village of Gilberts' infrastructure, is needed to assess the overall health of the Village of Gilberts.

The Statement of Activities presents information showing how the Village's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave). Both of the government-wide financial statements distinguish functions of the Village of Gilberts that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Village of Gilberts include general government, public safety, public works, and parks and recreation. The business-type activities of the Village of Gilberts include safety activities of the Village of Gilberts.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village of Gilberts, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Village of Gilberts can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the Village of Gilberts' near-term financing requirements.

Management's Discussion and Analysis April 30, 2014

USING THIS ANNUAL REPORT – Continued

Governmental Funds – Continued

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The Village of Gilberts maintains six individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund, Special Service Area #20 Fund and Capital Project Fund, which are considered major funds. Data from the other three governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The Village of Gilberts adopts an annual appropriated budget for the General Fund. The Village also prepares a working budget to monitor day-to-day operations. The basic governmental fund financial statements can be found on pages 7 - 10 of this report. Combining and individual fund financial statements and schedules can be found on pages 50 - 70 of this report.

Proprietary Funds

The Village of Gilberts maintains only one proprietary fund, an enterprise fund. Enterprise funds are used to report the functions presented as business-type activities in the government–wide financial statements. The Village of Gilberts utilizes an enterprise fund to account for its water and wastewater utility operations. The proprietary fund financial statements provide financial information for the Utility Fund, which is considered to be a major fund of the Village of Gilberts. The basic proprietary fund financial statements can be found on pages 11 - 13 of this report.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Village of Gilberts' own programs. The basis of accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statements can be found on pages 14 - 15 of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 16 - 46 of this report.

MD&A 3

Management's Discussion and Analysis April 30, 2014

USING THIS ANNUAL REPORT – Continued

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Village of Gilberts' employee pension obligations and the budgetary comparison schedule for the General Fund. Required supplementary information can be found on pages 47 - 49. The combining statements referred to earlier in connection with non-major governmental funds and internal service funds are presented immediately following the required supplementary information on pensions. Combining and individual fund statements and schedules can be found on pages 50 - 70 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)

Net position may serve over time as a useful indicator of a government's financial position. The following tables show that in the case of the Village of Gilberts, assets exceeded liabilities/deferred inflows by \$68.1 million.

	Net Position						
		Govern	mental	Busines	s-type		
		Activ	vities	Activit	ties	Total	
		2014	2013	2014	2013	2014	2013
Current & Other Assets	\$	6,554,182	5,614,816	3,203,143	3,058,417	9,757,325	8,673,233
Capital Assets		45,425,330	46,401,803	18,440,823	18,055,760	63,866,153	64,457,563
Total Assets		51,979,512	52,016,619	21,643,966	21,114,177	73,623,478	73,130,796
Long-Term Debt Other Liabilities Total Liabilities		2,333,183 352,746 2,685,929	2,603,205 367,459 2,970,664	3,722 50,772 54,494	1,255 28,202 29,457	2,336,905 403,518 2,740,423	2,604,460 395,661 3,000,121
Net Position Net Investment							
in Capital Assets		42,863,643	43,563,176	17,866,099	18,055,760	60,729,742	61,618,936
Restricted		2,878,238	2,723,864	-	-	2,878,238	2,723,864
Unrestricted		1,346,579	561,746	3,148,649	3,028,960	4,495,228	3,590,706
Total Net Position	\$	47,088,460	46,848,786	21,014,748	21,084,720	68,103,208	67,933,506

The Village of Gilberts' investment in capital assets (for example, land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding is the largest portion of the Village's net position at 89.1 percent of total assets. The Village of Gilberts uses these capital assets to provide services to citizens. Because these assets are physical improvements, they cannot be liquidated and are not available for future spending. Although the Village of Gilberts' investment in its capital assets is reported net of related debt, other sources are needed to repay outstanding debt since the capital assets themselves cannot be liquidated to cover these liabilities.

MD&A 4

Management's Discussion and Analysis April 30, 2014

USING THIS ANNUAL REPORT – Continued

GOVERNMENT-WIDE FINANCIAL ANALYSIS – continued

An additional portion, or 4.3 percent, of the Village of Gilberts' net position represents resources that are subject to external restrictions on how they may be used. The remaining 6.6 percent, or \$4,495,228, represents unrestricted net position and may be used to meet the government's ongoing obligations to citizens and creditors.

GOVERNMENT-WIDE FINANCIAL ANALYSIS – Continued

Net position of the Village of Gilberts' governmental activities had an increase from the prior year due mainly from the receipt of \$350,000 grant received for work incurred in 2009 for culverts on Hennessey Court. Revenues for the governmental activities totaled \$4.9 million which is a 20.4 percent increase. Expenses for the governmental activities totaled \$4.6 million which included \$1,007,354 of depreciation expense resulting in less than a 1.0 percent increase to net position in the current year.

Net position of the business-type activities decreased by 0.4 percent or \$69,972 from the prior year. Revenues for the business-type activities totaled \$1.4 million along with expenses for the business-type activities of \$1.4 million which includes \$431,177 of depreciation expense.

Revenues for the Village as a whole totaled \$6,228,673 (\$5,300,569 in the prior year), while expenses for the Village as a whole totaled \$6,058,981 (\$5,460,593 in the prior year), resulting in a nominal government-wide change to net position.

Governmental Activities

Revenues for governmental activities this year were \$4,863,335. Along with the increases in intergovernmental and tax revenues was the receipt of a \$350,000 grant for work incurred in 2009 for the Hennessey Court culverts. In addition, the Village received \$480,000 from the developer of the Conservancy Property to be used to pay tax certificates in FY-15 as part of the restructuring of the Neumann bankruptcy, thus increasing total revenue by \$825,483 over the prior year.

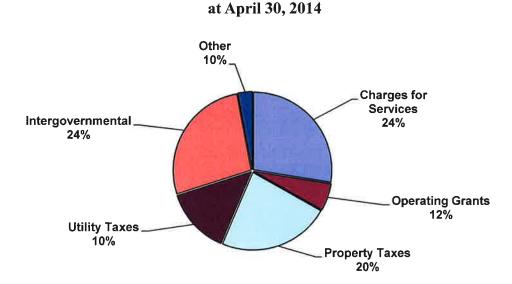

The cost of all governmental activities this year was \$4,623,661. The largest percentage of governmental expenses was to fund general government activities (47.3 percent of the \$4.6 million in total expenses for the governmental activities).

The following table graphically depicts the major revenue sources of the Village of Gilberts. The graph depicts very clearly the reliance of intergovernmental revenues, property taxes and charges for services to fund governmental activities. It also clearly identifies the smaller percentage the Village of Gilberts receives from utility taxes and other revenue sources. Intergovernmental revenues increased due to the State catching up in delayed Local Government Distributive Fund payments and the 1% Non-Home Rule Municipal Service Occupation Tax imposed by the Village.

Management's Discussion and Analysis April 30, 2014

GOVERNMENT-WIDE FINANCIAL ANALYSIS – Continued

Revenues by Source - Governmental Activities

There were nominal changes in revenue for property taxes and charges for services over the two-year period. Operating Grants increased due to the \$350,000 received for the repair of the Hennessey Court culverts and the increase in the other category relates to the \$480,000 received from the developer of the Conservancy property to purchase tax certificates in FY-15.

Revenues by Source - Governmental Activities at April 30, 2013

Management's Discussion and Analysis April 30, 2014

GOVERNMENT-WIDE FINANCIAL ANALYSIS – Continued

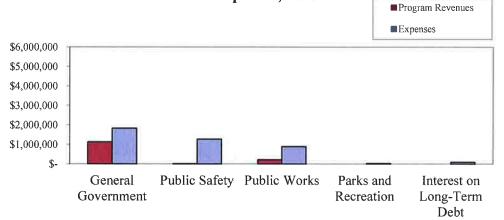

Governmental Activities – Continued

The 'Expenses and Program Revenues' Table identifies those governmental functions where program expenses greatly exceed revenues. For FY-14, the largest increase where expenses exceeded program revenues was in the public safety area by 99.9 percent. There were nominal changes over the two year period in all categories except General Government. The change in General Government is attributed to a grant received for repairs incurred in 2009 for the Hennessey Court culverts.

Expenses and Program Revenues - Governmental Activities at April 30, 2014

GOVERNMENT-WIDE FINANCIAL ANALYSIS – Continued

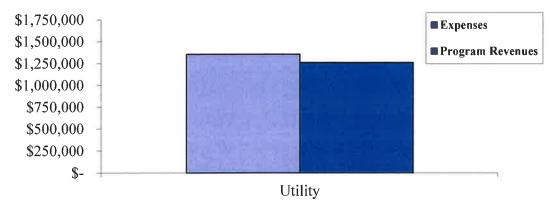

Business-Type Activities

Total revenues for the business-type activities totaled \$1,365,338 for the year, while expenses totaled \$1,435,310 for the year (including depreciation expense of \$431,177). The following chart 'Expenses and Program Revenues – Business-Type Activities' shows expenses exceeding revenue for the business-type activities. There were no major repairs during the fiscal year; however additional expenses were incurred with the engineering and construction of the barium removal system to comply with new unfunded mandates and environmental regulations.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the Village of Gilberts uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds

The focus of the Village's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the governmental funds reported combined ending fund balances of \$4.3 million, which is increase of \$0.9 million from last year's total of \$3.4 million.

The General Fund reported an ending fund balance of \$3,989,807, an increase of 28.1% or \$875,222 which included the receipt of a \$350,000 grant for expenditures incurred in 2009 for repairs of culverts on Hennessey Court and \$480,000 received from the developer of the Conservancy property to purchase tax certificates in FY-15 for property located within the Conservancy. Also included were transfers from motor fuel tax for partial payment of the road bond payment and a transfer from motor fuel tax for salt and snow plowing expenditures.

The Special Service Area #20 Fund did not have a change in fund balance as there was no activity reported in the SSA during the current year.

The Capital Projects Fund was closed in the current year into the General Fund.

Proprietary funds

The Village of Gilbert's proprietary fund provides the same type of information found in the governmentwide financial statements, but in more detail.

The Village reports the Utility Fund as a major proprietary fund. This fund accounts for the provision of potable water and wastewater treatment services to the residents of the Village. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations and maintenance, financing and related debt service, billing and collection.

The Utility Fund net position decreased by 0.4% from the prior year or \$69,972.

Management's Discussion and Analysis April 30, 2014

USING THIS ANNUAL REPORT – Continued

GENERAL FUND BUDGETARY HIGHLIGHTS

The Village made one amendment to the original budgeted revenues and expenditures for the General Fund to more accurately reflect the spending of the Village. General Fund actual revenues for the year totaled \$4,632,225 compared to final budgeted revenues of \$4,508,955. The major portion of the difference was due from the State catch-up of Local Government Distributive Fund payments.

The General Fund actual expenditures for the year were less than budgeted by \$125,734 (\$3,935,200 actual compared to \$4,060,934 final budgeted). The general government, public safety, public works, and parks and recreation functions were all lower than budgeted expenditures by \$56,503, \$35,213, \$37,464 and \$2,171 respectively, as management's awareness of budgetary constraints lead to reduced spending.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The Village of Gilberts' investment in capital assets for its governmental and business type activities as of April 30, 2014 was \$63.3 million (net of accumulated depreciation). This investment in capital assets includes land, land improvements, buildings and improvements, vehicles, machinery and equipment, park facilities, roads, sidewalks, and bridges. The decrease in capital assets for governmental activities is the result of moving the road project improvements from construction in progress in FY-12 to a depreciable asset in FY-13. The decrease in the business-type activities is attributable to the increase of accumulated depreciation of the capital assets.

CAPITAL ASSETS AND DEBT ADMINISTRATION - Continued

Debt Administration

At year-end, the Village of Gilberts had total debt of \$2,561,687 as compared to \$2,838,627 the previous year. The following is a comparative statement of outstanding debt:

		Long-Term Debt Outstanding					
		Governm			ss-type		1
		Activit	ies	Activ	vities	Tota	ıl

		2,561,687	2,838,627	1. .		2,561,687	2,838,627

Additional information on the Village's debt can be found on pages 33 - 37 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The Village's elected and appointed officials considered many factors when setting the fiscal year 2015 budget, tax rates, and fees that will be charged for its governmental and business-type activities. One of those factors is the economy. The Village is faced with a similar economic environment as many of the other local municipalities are faced with, including inflation, unemployment rates, and a slowing residential housing market. Budgeted expenditures for 2015 are expected to increase approximately 12.9 percent, from \$4.19 million to \$4.73 million, primarily due to the construction of Town Center Park facilities. The Village has added no major new programs or initiatives to the 2015 budget.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Village of Gilberts' finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be directed to Office of the Finance Director, Village of Gilberts, 87 Galligan Road, Gilberts, IL 60136.

BASIC FINANCIAL STATEMENTS

The basic financial Statements include integrated sets of financial statements as required by the GASB. The statements include:

- Government-Wide Financial Statements
- Fund Financial Statements

Governmental Funds

Proprietary Fund

Fiduciary Funds

In addition, the notes to the financial statements are included to provide information that is essential to a user's understanding of the basic financial statements.

Notes to the Financial Statements April 30, 2014

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Village of Gilberts, Illinois, incorporated in 1890, is a municipal corporation governed by an elected president and six-member Board of Trustees. The Village's major operations include police safety, highway and street maintenance and reconstruction, building code enforcement, public improvements, economic development, planning and zoning, water and sanitation, and general administrative services.

The government-wide financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant of the Village's accounting policies established in GAAP and used by the Village are described below.

REPORTING ENTITY

The Village's financial reporting entity comprises the following:

Primary Government: Village of Gilberts

In determining the financial reporting entity, the Village complies with the provisions of GASB Statement No. 61, "The Financial Reporting Omnibus – an Amendment of GASB Statements No. 14 and No. 34," and includes all component units that have a significant operational or financial relationship with the Village. Based upon the criteria set forth in the GASB Statement No. 61, there are no component units included in the reporting entity.

Police Pension Employees Retirement System

The Village's sworn police employees participate in the Police Pension Employees Retirement System (PPERS). PPERS functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the Village's President, one elected pension beneficiary (position currently not filled) and three elected police employees constitute the pension board. The participants are required to contribute a percentage of salary as established by state statute and the Village is obligated to fund all remaining PPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of contribution levels. Although it is legally separate from the Village, the PPERS is reported as if it were part of the primary government because its sole purpose is to provide retirement benefits for the Village's police employees. The PPERS is reported as a pension trust fund.

Notes to the Financial Statements April 30, 2014

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

BASIS OF PRESENTATION

Government-Wide Statements

The Village's basic financial statements include both government-wide (reporting the Village as a whole) and fund financial statements (reporting the Village's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. The Village's police, highway and street maintenance and reconstruction, building code enforcement, public improvements, economic development, planning and zoning, and general administrative services are classified as governmental activities. The Village's water and wastewater treatment services are classified as business-type activities.

In the government-wide Statement of Net Position, both the governmental and business-type activities columns are: (a) presented on a consolidated basis by column, and (b) reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Village's net position is reported in three parts: net invested in capital assets; restricted; and unrestricted. The Village first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the Village's functions and business-type activities (general government, public safety, public works, etc.) The functions are supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, which include 1) changes to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

The net costs (by function or business-type activity) are normally covered by general revenue (property tax, sales tax, intergovernmental revenues, interest income, etc).

The Village does not allocate indirect costs. An administrative service fee is charged by the General Fund to the other operating funds that is eliminated like a reimbursement (reducing the revenue and expense in the General Fund) to recover the direct costs of General Fund services provided (finance, personnel, purchasing, legal, technology management, etc.).

This government-wide focus is more on the sustainability of the Village as an entity and the change in the Village's net position resulting from the current year's activities.

Notes to the Financial Statements April 30, 2014

NOTE 1 -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES -- Continued

BASIS OF PRESENTATION – Continued

Fund Financial Statements

The financial transactions of the Village are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets/deferred outflows, liabilities/deferred inflows, fund equity, revenues and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. Nonmajor funds by category are summarized into a single column. GASB Statement No. 34 sets forth minimum criteria (percentage of the assets/deferred outflows, liabilities/deferred inflows, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The Village electively added funds, as major funds, which either had debt outstanding or specific community focus. The nonmajor funds are combined in a column in the fund financial statements. A fund is considered major if it is the primary operating fund of the Village or meets the following criteria:

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The various funds are reported by generic classification within the financial statements. The following fund types are used by the Village:

Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Village:

General fund is the general operating fund of the Village. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund is a major fund.

Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The Village maintains one nonmajor special revenue fund, the Motor Fuel Tax Fund.

Notes to the Financial Statements April 30, 2014

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

BASIS OF PRESENTATION – Continued

Fund Financial Statements – Continued

Governmental Funds – Continued

Capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by business-type/proprietary funds). The Village maintains two major capital projects funds, the Special Service Area #20 and the Capital Projects. The Special Service Area #20 Fund is used to account for the proceeds of the Special Service Area #20 tax levy for related administrative and construction costs. The Capital Projects Fund is used to account for the construction of storm water improvements, road improvements and repairs within the Village of Gilberts. The Village also maintains three nonmajor capital project funds, the TIF #1 Fund, the TIF #2 Fund and the Special Service Area #19 Fund.

Proprietary Funds

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary fund of the Village:

Enterprise funds are required to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy designed to recover similar costs.

The Village maintains one major enterprise fund, the Utility Fund, which is used to account for the provision of water and wastewater treatment services to the residents of the Village. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations and maintenance, financing and related debt service, billing and collection.

Fiduciary Funds

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support Village programs. The reporting focus is on net position and changes in net position and is reported using accounting principles similar to proprietary funds.

Pension trust funds are used to account for assets held in a trustee capacity for pension benefit payments. The Police Pension Fund accounts for the accumulation of resources to be used for disability and retirement annuity payments to employees covered by the plan.

Notes to the Financial Statements April 30, 2014

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

BASIS OF PRESENTATION – Continued

Fund Financial Statements - Continued

Fiduciary Funds – Continued

Agency funds are used to account for assets held by the Village in a purely custodial capacity. The Special Services Area #9 Fund is used to account for debt service payments made by property holders relative to Special Service Area Bonds issued. The Special Service Area Bonds issued to account for debt service payments made by property holders relative to Special Service Area Bonds issued. The Special Service Area Bonds issued. The Special Service Payments made by property holders relative to Special Service Area Bonds issued. The service payments made by property holders relative to Special Service Area Bonds issued.

The Village's fiduciary funds are presented in the fiduciary fund financial statements by type (pension trust and agency). Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, pension participants, etc.) and cannot be used to address activities or obligations of the Village, these funds are not incorporated into the government-wide statements.

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement Focus

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

On the government-wide Statement of Net Position and the Statement of Activities, both governmental and business-type activities are presented using the economic resources measurement focus as defined below.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate.

All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets/deferred outflows and liabilities/deferred inflows are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial financial resources at the end of the period.

Notes to the Financial Statements April 30, 2014

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING – Continued

Measurement Focus – Continued

All proprietary and pension trust funds utilize an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets/deferred outflows and liabilities/deferred inflows (whether current or noncurrent) associated with their activities are reported. Proprietary and pension trust fund equity is classified as net position.

Agency funds are not involved in the measurement of results of operations; therefore, measurement focus is not applicable to them.

Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability/deferred inflow is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities/deferred inflows resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year-end. The Village recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70.

A sixty day availability period is used for revenue recognition for all other governmental fund revenues. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are recognized when due.

In applying the susceptible to accrual concept under the modified accrual basis, those revenues susceptible to accrual are property taxes, sales and use taxes, franchise taxes, licenses, interest revenue, and charges for services. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash.

All proprietary, pension trust and agency funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

Notes to the Financial Statements April 30, 2014

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING – Continued

Basis of Accounting – Continued

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Village's enterprise funds, are charges to customers for sales and services. The Village also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITIONS OR EQUITY

Cash and Investments

Cash and cash equivalents on the Statement of Net Position are considered to be cash on hand, demand deposits, cash with fiscal agent. For the purpose of the proprietary funds "Statement of Cash Flows," cash and cash equivalents are considered to be cash on hand, demand deposits, cash with fiscal agent, and all highly liquid investments with an original maturity of three months or less.

Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national exchanges are valued at the last reported sales price. Investments that do not have any established market, if any, are reported at estimated fair value.

Receivables

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivables balances for governmental activities include property taxes, sales and use taxes, franchise taxes, and grants. Business-type activities report utility charges as their major receivables.

Interfund Receivables, Payables and Activity

Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

Notes to the Financial Statements April 30, 2014

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITIONS OR EQUITY – Continued

Prepaids

Prepaids are valued at cost, which approximates market. The cost of governmental fund-type prepaids are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaids in both the government-wide and fund financial statements.

Capital Assets

Capital assets purchased or acquired with an original cost of \$10,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. General capital assets are long-lived assets of the Village as a whole. Infrastructure such as streets, traffic signals and signs are capitalized. The valuation basis for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement costs.

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation bases for proprietary fund capital assets are the same as those used for the general capital assets. Donated capital assets are capitalized at estimated fair market value on the date donated.

Depreciation on all assets is computed and recorded using the straight-line method of depreciation over the following estimated useful lives:

Land Improvements	15 – 20 Years
Buildings and Structures	10 – 45 Years
Machinery and Equipment	3 – 30 Years
Infrastructure	20 - 50 Years

Compensated Absences

The Village accrues accumulated unpaid vacation and associated employee-related costs when earned (or estimated to be earned) by the employee. In accordance with GASB Statement No. 16, no liability is recorded for nonvesting accumulation rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulated sick leave that is estimated to be taken as "terminal leave" prior to retirement.

All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Notes to the Financial Statements April 30, 2014

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITIONS OR EQUITY – Continued

Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses at the time of issuance.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position

In the government-wide financial statements, equity is classified as net position and displayed in three components:

Net investment in capital assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted – Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislations.

Unrestricted – All other net positions balances that do not meet the definition of "restricted" or "net invested in capital assets."

Notes to the Financial Statements April 30, 2014

NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

BUDGETARY INFORMATION

Budgets are adopted on a basis consistent with generally accepted accounting principles. The level of control where expenditures may not exceed the budget is the fund level of activity. All annual budgets lapse at fiscal year end.

All departments of the Village submit requests for budgets to the Finance Department so that a budget may be prepared. The budget is prepared by fund, function, and activity, and includes information on the past year, current year estimates, and requested budgets for the next fiscal year.

The proposed budget is presented to the governing body for review. The governing body holds public hearings and may add to, subtract from, or change budgeted amounts, but may not change the form of the budget.

The governing body is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the governing body. Expenditures may not legally exceed budgeted appropriations at the fund level. During the year, supplementary appropriations were necessary.

The Village does not adopt an annual budget for the following funds: The Special Service Area #20 Capital Projects Fund, the Motor Fuel Tax Fund, the TIF #1 Capital Projects Fund, the TIF #2 Capital Projects Fund, the Special Service Area #19 Capital Projects Fund, the Capital Projects Fund, and the Police Pension Fund.

DEFICIT FUND EQUITY

The following fund had deficit fund equity as of the date of this report:

Fund

Deficit

Special Sevice Area #20

\$ 574,724

Notes to the Financial Statements April 30, 2014

NOTE 3 – DETAIL NOTES ON ALL FUNDS

DEPOSITS AND INVESTMENTS

The Village maintains a cash and investment pool that is available for use by all funds except the pension trust fund. Each fund type's portion of this pool is displayed on the financial statements as "cash and investments." In addition, investments are separately held by several of the Village's funds.

Permitted Deposits and Investments – Statutes authorize the Village to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, and the Illinois Funds. Pension funds may also invest in certain non-U.S. obligations, mortgages, veteran's loans, life insurance company contracts, money market mutual funds and common and preferred stocks.

The deposits and investments of the Pension Fund are held separately from those of other Village funds. Statutes authorize the Pension Fund to make deposits/invest in interest bearing direct obligations of the United States of America; obligations that are fully guaranteed or insured as to the payment of principal and interest by the United States of America; bonds, notes, debentures, or similar obligations of agencies of the United States of America; savings accounts or certificates of deposit issued by banks or savings and loan associations chartered by the United States of America or by the State of Illinois, to the extent that the deposits are insured by the agencies or instrumentalities of the federal government; credit unions, to the extent that the deposits are insured by the agencies or instrumentalities of the federal government; State of Illinois bonds; pooled accounts managed by the Illinois Funds Market Fund (Formerly known as IPTIP, Illinois Public Treasurer's Investment Pool), or by banks, their subsidiaries or holding companies, in accordance with the laws of the State of Illinois; bonds or tax anticipation warrants of any county, township, or municipal corporation of the State of Illinois; direct obligations of the State of Israel; money market mutual funds managed by investment companies that are registered under the Federal Investment Company Act of 1940 and the Illinois Securities Law of 1953 and are diversified, open-ended management investment companies, provided the portfolio is limited to specified restrictions; general accounts of life insurance companies; and separate accounts of life insurance companies and mutual funds, the mutual funds must meet specific restrictions, provided the investment in separate accounts and mutual funds does not exceed ten percent of the Pension Fund's plan net position; and corporate bonds managed through an investment advisor, rated as investment grade by one of the two largest rating services at the time of purchase. Pension Funds with plan net position of \$2.5 million or more may invest up to forty-five percent of plan net position in separate accounts of life insurance companies and mutual funds. Pension Funds with plan net position of at least \$5 million that have appointed an investment advisor, may through that investment advisor invest up to forty-five percent of the plan net position in common and preferred stocks that meet specific restrictions. In addition, pension funds with plan net position of at least \$10 million that have appointed an investment advisor, may invest up to fifty percent of its net position in common and preferred stocks and mutual funds that meet specific restrictions effective July 1, 2011 and up to fifty-five percent effective July 1, 2012.

Notes to the Financial Statements April 30, 2014

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

DEPOSITS AND INVESTMENTS – Continued

Illinois Funds is an investment pool managed by the Illinois public Treasurer's Office which allows governments within the State to pool their funds for investment purposes. Although not registered with the SEC, Illinois Funds does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in Illinois Funds are valued at the share price, the price for which the investment could be sold.

Village Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk

Deposits and Investments. At year-end, the carrying amount of the Village's deposits for governmental and business-type activities totaled \$4,841,715 and the bank balances totaled \$4,684,005. In addition, the Village has \$2,097,576 invested in the Illinois Funds at year-end.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the Village limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for short and long-term cash flow needs while providing a reasonable rate of return based on the current market. The maturity of the Village's investments in the Illinois Funds is less than one year.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Village limits its exposure to credit risk by primarily investing in external investment pools. At year-end, the Village's investment in the Illinois Funds was rated AAAm by Standard & Poor's.

Custodial Credit Risk. In the case of deposits, this is the risk that in the event of a bank failure, the Village's deposits may not be returned to it. The Village's investment policy requires pledging of collateral for all bank balances in excess of federal depository insurance, with the collateral held by the Village, an independent third-party, or the Federal Reserve Bank in the Village's name. At year-end, the entire bank balance of deposits was covered by collateral, federal depository or equivalent insurance.

For an investment, this is the risk that in the event of the failure of the counterparty, the Village will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Village's investment policy does not address this risk. To limit its exposure, the Village requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held by an independent thirdparty custodian and evidenced by safekeeping receipts and a written custodial agreement. At year-end, the Village's investment in the Illinois Funds is not subject to custodial credit risk.

Notes to the Financial Statements April 30, 2014

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

DEPOSITS AND INVESTMENTS – Continued

Village Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk – Continued

Concentration of Credit Risk. This is the risk of loss attributed to the magnitude of the Village's investment in a single issuer. The Village's investment policy requires diversification of investments to avoid unreasonable risk. Furthermore, concentration in short-term corporation obligations will not exceed 90% of the limit contained in Illinois law. At year-end, the Village's investments in the Illinois Funds represent more than 5% of the total cash and investments portfolio.

Police Pension Fund Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk

Deposits. At year-end, the carrying amount of the Police Pension Fund's deposits totaled \$218,992 and the bank balances totaled \$218,992.

Investments. The Fund has the following investment fair values and maturities:

		Investment Maturities (in Years)			
	Fair	Less Than			More Than
Investment Type	Value	1	1 to 5	6 to 10	10
U.S. Treasuries	\$ 546,027		441,553	104,474	-
U.S. Agencies	144,257	51,293	92,964	8	80

Interest Rate Risk. In accordance with its investment policy, the Fund limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for all reasonably anticipated operating requirements while providing a reasonable rate of return based on the current market.

Credit Risk. The Fund limits its exposure to credit risk by primarily investing in U.S. Treasuries and Agencies and equity mutual funds. At year-end, the funds invested in U.S. Agency Securities are all AAA rated by Standard and Poor's.

Notes to the Financial Statements April 30, 2014

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

DEPOSITS AND INVESTMENTS – Continued

Police Pension Fund Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk – Continued

Custodial Credit Risk. The Fund's investment policy does not limit custodial credit risk for deposits. At year-end, the entire bank balance of deposits was covered by collateral, federal depository or equivalent insurance.

For investments, the Fund's investment policy requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held by an independent third-party custodian and evidenced by safekeeping receipts.

Concentration Credit Risk. The Fund's investment policy requires diversification of investment to avoid unreasonable risk but does not establish specific maximum portfolio percentages. Specifically, the fund's investment policy states the following target asset allocation guidelines shall be followed: equities at 10%, fixed income securities at 85% and cash at 5%. At year end, the Fund's investments are within range of the target allocations described above. In addition to the securities and fair values listed above, the Fund also has \$151,534 invested in mutual funds.

PROPERTY TAXES

Property taxes for 2012 attach as an enforceable lien on January 1 on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by Kane County and are payable in two installments, on or about June 1 and September 1. The County collects such taxes and remits them periodically.

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

NET POSITION/ FUND BALANCE – Continued

Fund Balance Classifications

The following is a schedule of fund balance classifications for the governmental funds as of the date of this report:

	 General	Capital Projects Special Service Area # 20	Nonmajor	Totals
Fund Balances				
Nonspendable - Prepaids	\$ 52,120		-	52,120
Restricted Drug Forfeiture Highways and Streets	6,058	-	÷	6,058
Road Improvement	847,022	-	474,816	1,321,838
Capital Projects	1,162,694		387,648	1,550,342
	 2,015,774		862,464	2,878,238
Unassigned	 1,921,913	(574,724)	Ē	1,347,189
Total Fund Balances	 3,989,807	(574,724)	862,464	4,277,547

In the governmental funds financial statements, the District considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The District first utilizes committed, then assigned and then unassigned fund balance when an expenditure is incurred for purposes for which all three unrestricted fund balances are available.

Minimum Fund Balance Policy. The Village's policy manual states that the General Fund should maintain a minimum unrestricted fund balance equal to no less than three months and no more than six months of budgeted operating expenditures. Fund balances in excess of said levels may be transferred to other funds or the capital projects at the discretion of the Board.

Notes to the Financial Statements April 30, 2014

NOTE 4 – OTHER INFORMATION

RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; natural disasters; employee health; and injuries to the Village's employees. In order to protect against these risks, the Village is a member of the Intergovernmental Personnel Benefit Cooperative (IPBC) and also purchases private insurance.

Intergovernmental Personnel Benefit Cooperative (IPBC)

Risks for medical and death benefits for employees and retirees are provided for through the Village's participation in the Intergovernmental Personnel Benefit Cooperative (IPBC). IPBC acts as an administrative agency to receive, process and pay such claims as may come within the benefit program of each member. IPBC maintains specific reinsurance coverage for claims in excess of \$50,000 per individual employee participant. The Village pays premiums to IPBC based upon current employee participation and its prior experience factor with the pool. Current year overages or underages for participation in the pool are adjusted into subsequent years experience factor for premiums. The Village enrolled in IPBC beginning April 1, 2013. Settlements did not exceed insurance coverage in any of the past three fiscal years.

CONTINGENT LIABILITIES

Litigation

The Village is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the Village's attorney, the resolution of these matters will not have a material adverse effect on the financial condition of the Village.

Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Village expects such amounts, if any, to be immaterial.

Notes to the Financial Statements April 30, 2014

NOTE 4 - OTHER INFORMATION - Continued

EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLANS

The Village contributes to two defined benefit pension plans, the Illinois Municipal Retirement Fund (IMRF), a defined benefit agent multiple-employer public employee retirement system; and the Police Pension Plan that is a single-employer pension plan. Separate, audited GAAP-basis financial statements for the Police Pension Plan can be obtained by writing the Village at 87 Galligan Road, Gilberts, Illinois 60136. IMRF does issue a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole, but not by individual employer. That report may be obtained on-line at <u>www.imrf.org</u>. The benefit, benefit levels, employee contributions, and employer contributions are governed by Illinois Compiled Statutes and can only be amended by the Illinois General Assembly.

Plan Descriptions, Provisions and Funding Policies

Illinois Municipal Retirement System (IMRF)

All employees (other than those covered by the Police Pension Plan) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. Participating members hired before January 1, 2011 who retire at or after age 60 with 8 years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3 percent of their final rate (average of the highest 48 consecutive months' earnings during the last 10 years) of earnings, for each year of credited service up to 15 years, and 2 percent for each year thereafter. For participating members hired on or after January 1, 2011 who retire at or after age 67 with 10 years of service are entitled to an annual retirement benefit, payable monthly for life in an amount equal to 1-2/3 percent of their final rate (average of the highest 96 consecutive months' earnings during the last 10 years) of earnings, for each year of credited service, with a maximum salary cap of \$106,800 at January 1, 2011. The maximum salary cap increases each year thereafter. The monthly pension of a member hired on or after January 1, 2011, shall be increased annually, following the later of the first anniversary date of retirement or the month following the attainment of age 62, by the lesser of 3% or 1/2 of the consumer price index. Employees with at least 10 years of credited service may retire at or after age 62 and receive a reduced benefit. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute. Employees participating in the plan are required to contribute 4.50 percent of their annual covered salary to IMRF. The employees' contribution rate is established by state statute. The Village is required to contribute the remaining amount necessary to fund the IMRF plan as specified by statute. The employer contribution and annual required contribution rate for calendar year 2013 was 11.60 percent.

Notes to the Financial Statements April 30, 2014

EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLANS – Continued

Plan Descriptions, Provisions and Funding Policies - Continued

Police Pension Plan

The Police Pension Plan is a single-employer defined benefit pension plan that covers all sworn police personnel. Although this is a single-employer pension plan, the defined benefits and employee and employer contribution levels are governed by Illinois State Statutes and may be amended only by the Illinois legislature. The Village accounts for the plan as a pension trust fund.

Retirees and beneficiaries currently receiving benefits and terminated employees entitled	
to benefits but not yet receiving them.	i n .:
Current Employees	
Vested and Nonvested	
	7

The following is a summary of the Police Pension Plan as provided for in Illinois State Statutes.

The Police Pension Plan provides retirement benefits as well as death and disability benefits. Covered employees hired before January 1, 2012, attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive an annual retirement benefit of ½ of the salary attached to the rank held on the last day of service, or for one year prior to the last day, whichever is greater. The pension shall be increased by 2.5% of such salary for each additional year of service over 20 years up to 30 years, to a maximum of 75% of such salary. Covered employees hired on or after January 1, 2012, attaining the age of 55 with at least 10 years creditable service are entitled to receive an annual retirement benefit of 2.5% of final average salary for each year of service, with a maximum salary cap of \$106,800 as of January 1, 2012. The maximum salary cap increases each year thereafter. The monthly benefit of a police officer hired before January 1, 2012, who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3% of the original pension and 3% compounded annually thereafter.

Notes to the Financial Statements April 30, 2014

NOTE 4 - OTHER INFORMATION - Continued

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLANS - Continued

Plan Descriptions, Provisions and Funding Policies - Continued

Police Pension Plan - Continued

The monthly pension of a police officer hired on or after January 1, 2012, shall be increased annually, following the later of the first anniversary date of retirement or the month following the attainment of age 60, but the lesser of 3% or $\frac{1}{2}$ of the consumer price index. Employees with at least 10 years but less than 20 years of creditable service may retire at or after age 60 and receive a reduced benefit.

Covered employees are required to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plan, including administrative costs, as actuarially determined by an enrolled actuary. By the year 2040 the Village's contributions must accumulate to the point where the past service cost for the Police Pension Plan is 90% funded.

Summary of Significant Accounting Policies and Plan Asset Matters

Basis of Accounting

The financial statements are prepared using the accrual basis of accounting. Employee and employer contributions are recognized as revenues when due, pursuant to formal commitments, as well as statutory or contractual requirements. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Method Used to Value Investments

Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national exchanges are valued at the last reported sales price.

Significant Investments

There are no investments (other than U.S. Government and U.S. Government-guaranteed obligations) in the Police Pension Fund that represent 5 percent or more of net position available for benefits for the Police Pension Fund. Information for IMRF is not available.

Related Party Transactions

There are no securities of the employer or any other related parties included in plan assets.

Funded Status and Funding Progress

The Village's funded status for the current year and related information for each plan is as follows:

		Police
	IMRF	Pension
Actuarial Valuation Date	12/31/13	4/30/2013
Percent Funded	41.99%	72.37%
Actuarial Accrued Liability for Benefits	\$791,350	\$1,861,576
Actuarial Value of Assets	\$332,327	\$1,347,164
Over (Under) Funded Actuarial Accrued Liability (UAAL)	(\$459,023)	(\$514,412)
Covered Payroll (Annual Payroll of Active Employees Covered by the Plan)	\$692,195	\$486,277
Ratio of UAAL to Covered Payroll	66.31%	105.79%

The schedule of funding progress, presented as Required Supplementary Information (RSI) following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Notes to the Financial Statements April 30, 2014

NOTE 4 - OTHER INFORMATION - Continued

OTHER POST-EMPLOYMENT BENEFITS

The Village has evaluated its potential other post-employment benefits liability. Former employees who choose to retain their rights to health insurance through the Village are required to pay 100% of the current premium. However, no former employees have chosen to stay in the Village's health insurance plan. Therefore, there has been 0% utilization and, therefore, no implicit subsidy to calculate in accordance with GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions*. Additionally, the Village had no former employees for which the Village was providing an explicit subsidy and no current employees with agreements for future explicit subsidies upon retirement. Therefore, the Village has not recorded any post-employment benefit liability as of April 30, 2014.

Annual OPEB Costs and Net OPEB Obligation

The net OPEB obligation (NOPEBO) as of April 30, 2014, was calculated as follows:

Annual Required Contribution Interest on the NPO Adjustment to the ARC	\$	4,096 851 (21,957)
Annual OPEB Cost Actual Contribution	-	(17,010)
Increase in the NPO		(17,010)
NPO - Beginning of Year	_	17,010
NPO - End of Year	_	-

Trend Information

The Village's annual OPEB cost, actual contributions, the percentage of annual OPEB cost contributed and the net OPEB obligation are as follows:

	Annual			Percentage		Net
Fiscal	OPEB	F	Actual	of OPEB		OPEB
Year	 Cost	Con	tributions	Cost Contributed	0	bligation
2012	\$ 4,304	\$	4	0.00%	\$	12,598
2013	4,412		-	0.00%		17,010
2014	(17,010)		-	0.00%		

REQUIRED SUPPLEMENTARY INFORMATION

Required supplementary information includes financial information and disclosures that are required by the GASB but are not considered a part of the basic financial statements. Such information includes:

- Schedule of Funding Progress and Employer Contributions Illinois Municipal Retirement Fund Police Pension Fund
- Budgetary Comparison Schedule General Fund

Notes to the Required Supplementary Information

• Budgetary information – budgets are adopted on a basis consistent with generally accepted accounting principles.

.

OTHER SUPPLEMENTARY INFORMATION

Other supplementary information includes financial statements and schedules not required by the GASB, nor a part of the basic financial statements, but are presented for purposes of additional analysis.

Such statements and schedules include:

- Budgetary Comparison and Individual Fund Schedules Major Governmental Funds General Fund Special Service Area #20 – Capital Projects Fund Capital Projects Fund
- Combining Statements Nonmajor Governmental Funds
- Individual Fund Schedules Nonmajor Governmental Funds Motor Fuel Tax – Special Revenue Fund TIF #1 – Capital Projects Fund TIF #2 – Capital Projects Fund Special Service Area #19 – Capital Projects Fund
- Budgetary Comparison Schedules Enterprise Fund Utility Fund
- Combining Statement of Changes in Assets and Liabilities Agency Funds

COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES

GENERAL FUND

The General Fund accounts for all financial resources except those required to be accounted for in another fund.

SPECIAL REVENUE FUNDS

The Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than fiduciary funds or capital projects funds) that are legally restricted to expenditure for specified purposes.

Motor Fuel Tax Fund

The Motor Fuel Tax Fund is used to account for state shared motor fuel tax revenues that are legally restricted to maintenance and construction of streets, sidewalks, alleys and traffic signals.

CAPITAL PROJECTS FUNDS

The Capital Projects Funds are used to account for all resources used for the acquisition of capital assets by the Village, except those financed by Proprietary and Trust Funds, including general and infrastructure capital assets.

Special Service Area #20 Fund

The Special Service Area #20 Fund is used to account for the proceeds of the Special Service Area #20 tax levy for related administrative and construction costs.

Capital Projects Fund

The Capital Projects Fund is used to account for the construction of storm water improvements, road improvements and repairs within the Village of Gilberts.

TIF #1 Fund

The TIF #1 Fund is used to account for activities associated with improvements within the Tax Increment Financing District #1.

COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES

CAPITAL PROJECTS FUNDS - Continued

TIF #2 Fund

The TIF #2 Fund is used to account for activities associated with the redevelopment within the Tax Increment Financing District #2.

Special Service Area #19 Fund

The Special Service Area #19 Fund is used to account for the proceeds of the Special Service Area #19 tax levy for related administrative and construction costs.

ENTERPRISE FUNDS

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where it has been decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purpose.

Utility Fund

The Utility Fund is used to account for the provision of water and wastewater treatment services to the residents of the Village. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations and maintenance, financing and related debt service, billing and collection.

TRUST AND AGENCY FUNDS

PENSION TRUST FUNDS

Police Pension Fund

Pension Trust Funds are set up for the purpose of accounting for money received from nonenterprise fund sources and held by a governmental unit in the capacity of trustee for individuals, entities and nonpublic organizations.

COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES

TRUST AND AGENCY FUNDS - Continued

AGENCY FUNDS

Performance Bond Fund

The Performance Bond Fund is used to account for refundable deposits held by the Village to ensure the completion of public improvements by private developers.

Special Services Area #9 Fund

The Special Services Area #9 Fund is used to account for debt service payments made by property holders relative to Special Service Area Bonds issued.

Special Services Area #15 Fund

The Special Services Area #15 Fund is used to account for debt service payments made by property holders relative to Special Service Area Bonds issued.

Special Services Area #19 Fund

The Special Services Area #19 Fund is used to account for debt service payments made by property holders relative to Special Service Area Bonds issued.

STATISTICAL SECTION (Unaudited)

This part of the comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Village's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the Village's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the Village's most significant local revenue sources.

Debt Capacity

These schedules present information to help the reader assess the affordability of the Village's current levels of outstanding debt and the Village's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the Village's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the Village's financial report relates to the services the Village provides and the activities it performs.

Net Position by Component - Last Ten Fiscal Years* April 30, 2014 (Unaudited)
