**To: The Village President, Members of the Village Board of Trustees, and  
Citizens of the Village of Gilberts, Illinois.**

Illinois State Law requires that all general-purpose local governments publish a complete set of financial statements within six months of the close of the fiscal year. These financial statements must conform to Generally Accepted Accounting Principles (GAAP), and be audited in accordance with generally accepted accounting standards by Certified Public Accountants licensed by the State of Illinois. It is with pleasure that the Comprehensive Financial Annual Report (CAFR) for the Village of Gilberts, Illinois is presented for the year ended April 30, 2021.

The 2021 CAFR complies with the new financial reporting model developed by the Governmental Accounting Standards Board (GASB) and is intended to provide additional information not previously available in the Village's financial statements.

The CAFR consists of the Village of Gilberts management staff's representations concerning the finances of the Village. Management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management has continued to focus on the internal controls that are designed to protect the Village's assets from loss, theft or misuse and to compile sufficiently reliable information for the preparation of the Village's financial statements in conformity with GAAP.

Management continues to revise processes, implement internal controls, and establish new financial policies that allow us to provide reasonable controls within our means in order to prepare financial statements that are free of any material misstatements. Management asserts that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

### ***Fiscal Management***

Annually the Village adopts a budget that defines its legal spending authority. Departments submit requests to the Village Administrator so that a budget may be prepared. The requested budget document is prepared by fund, function, and activity. The budget is presented to the Village Board for review. The Village Board holds a public hearing and adjusts the requested budgeted amounts to reflect anticipated operations and capital spending for the delivery of services offered by the Village. The Village's budget is adopted no later than April 30<sup>th</sup>, the close of the preceding fiscal year.

The Village of Gilbert's financial statements have been audited by Lauterbach & Amen, LLP, a firm licensed by the State of Illinois as certified public accountants with specialization in local government accounting. The goal of the independent audit is to provide reasonable assurance that the financial statements of the Village of Gilberts are free from material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures shown in these financial statements; assessing the accounting principles and significant estimates used; and evaluating the overall financial statement presentation. In addition, the auditors prepared a list of management comments which outline areas where the Village management can further improve internal controls and accounting procedures. The administration, along with the finance department, appreciates and welcomes the auditors' recommendations for internal control improvement and looks forward to executing their recommendations.

### ***Fiscal Report***

The independent auditor concluded that there was a reasonable basis for rendering an unmodified opinion that the Village of Gilberts' financial statements for the fiscal year ended April 30, 2021, are fairly presented in conformity to GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The financial reports are presented in accordance with the GASB reporting model requirements. GAAP require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of a Management Discussion and Analysis (MD&A). This letter of transmittal will not repeat the financial overview and analysis which is provided in the MD&A, but encourages the reader to review this important section of the financial statements for a comprehensive overview and analysis of how the Village has fared over the last fiscal year.

### ***Village Profile***

The Village of Gilberts was platted in 1855 and incorporated in 1890 and has a population of 8,366 at the 2020 census. The Village is located in Kane County and governed by a Village President and Board of Trustees. The Village's policies are set by the Village President and the Village Board. The Village Administrator is responsible for implementing the policies and directives of the Village President and the Village Board.

The Village provides a full range of services. Gilberts' public safety activities include police protection and a neighborhood watch program. Public works provides street and right-of-way maintenance and repair, as well as building maintenance, and park maintenance. Water service includes a treatment plant, sanitary sewer service and a sanitation treatment plant. These functions are included in the Water and Sewer enterprise fund.

The Village also assists with various community events within the Village's departmental program budgets. These include the annual Easter Egg Hunt, Halloween Bonfire, Movies in the Park, and Community Days celebration. In addition, the Village is accountable for the Gilberts Police Pension Fund, managed by a legally separate Board, and four Special Service Areas which are administered by independent Trustees (Wells Fargo and Amalgamated Bank of Chicago).

### ***Economic Condition and Outlook***

The Village continues to maintain a tenuous financial position with slow revenue growth. This trend has been evident over the last several years and results mainly from the increased emphasis on infrastructure improvements, slow residential growth, and the lack of new revenue sources.

During the current year the Village had slight increases in property taxes and increases in Intergovernmental revenues. Telecommunication revenue again declined slightly with the decrease in residential land lines. Actual General Fund revenues exceeded final adjusted budget due to a slight increase in building related revenues.

### ***Financial Planning and Relevant Financial Policies***

During the budget cycle, the Village Board reviewed the current Fund Balance/Net Position Policy as it pertains to Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. This policy establishes a minimum level at which the projected end-of-year fund balance/net position must observe as a result of the constraints imposed upon the resources reported. The Village Board set a fund balance target of no less than three months and no more than six months of operating expenditures. This will assist in providing available funds for any shortfalls in revenue and/or any unanticipated large expenditures.

### ***Major Initiatives***

#### **New Development**

In the Conservancy project, development continues with nine new single-family home permits being issued. Additionally, the Gilberts Town Center duplex lots have begun construction with the issuance of six permits in that development.

#### **Comprehensive Plan**

The Village will be reviewing its comprehensive plan in the next few years to ensure that it accurately reflects the goals of the Village Board.

### ***Awards***

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Village of Gilberts for our Consolidated Annual Financial Report (CAFR) for the fiscal year ended April 30, 2020. This was the tenth consecutive year the Village received such a prestigious award.

A Certificate of Achievement is valid for one year. We believe that this current report also meets the requirements of the Certificate of Achievement Program, and we are submitting it to the GFOA to determine its eligibility for a certificate. It is our hope that the Village of Gilberts' Finance Department staff will continually meet the level of excellence required to be granted this award for many years in the future.

In addition to the Certificate of Achievement for Excellence in Financial Reporting, the Village of Gilberts also received an Award for Outstanding Achievement in Popular Annual Financial Reporting for our Popular Annual Financial Report (PAFR) for the fiscal year ended April 30, 2020. This is the ninth year the Village has earned this award.

The GFOA awards Certificates of Achievement for Excellence in Financial Reporting for CAFRs and PAFRs to those government entities who publish easily readable and efficiently organized reports. These reports must satisfy both generally accepted accounting principles and applicable legal requirements.

**Acknowledgements**

The preparation of this report, and the confidence with which it is presented, would not have been possible without the dedicated services of the Finance staff and our independent auditors Lauterbach & Amen, LLP.

In closing, we would also like to thank the President and the Board of Trustees, and all department heads for their support in maintaining the highest standards of professionalism in the management of the Village's finances.

## **INDEPENDENT AUDITORS' REPORT**

October 11, 2021

The Honorable Village President  
Members of the Board of Trustees  
Village of Gilberts, Illinois

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Gilberts, Illinois, as of and for the year ended April 30, 2021, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Village's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Gilberts, Illinois, as of April 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents and budgetary information reported in the required supplementary information as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Gilberts, Illinois' basic financial statements. The introductory section, other supplementary information, supplemental schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information and supplemental schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and supplemental schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

## **VILLAGE OF GILBERTS, ILLINOIS**

### **Management's Discussion and Analysis April 30, 2021**

---

Our discussion and analysis of the Village of Gilberts' financial performance provides an overview of the Village of Gilberts' financial activities for the fiscal year ended April 30, 2021. Please read it in conjunction with the Village of Gilberts' transmittal letter and the financial statements.

#### **FINANCIAL HIGHLIGHTS**

- During the year, the governmental funds reported revenues in excess of expenditures by \$2,054,915 due primarily from higher than anticipated collections in from certain tax revenues, such as sales and use taxes as well as income taxes. The General Fund reported an ending fund balance of \$5,806,349, an increase of 20.0% or \$967,875.
- Operating revenues for the year for business-type activities totaled \$1,872,330. Operating expenses (including depreciation) totaled \$1,822,680, resulting in a surplus of \$49,650. In the prior year the business-type activities reported a deficit of \$23,389.
- Total net position for governmental and business-type activities increased \$1,904,153 compared to the prior year, with total net position at April 30, 2021 of \$64,416,077.

#### **USING THIS ANNUAL REPORT**

This annual report consists of a series of financial statements. The Statement of Net position and the Statement of Activities provide information about the activities of the Village of Gilberts as a whole and present a longer-term view of the Village of Gilberts' finances. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the Village of Gilberts' operation in more detail than the government-wide statements by providing information about the Village of Gilberts' most significant funds. The remaining statements provide financial information about activities for which the Village of Gilberts acts solely as a trustee or agent for the benefit of those outside of the government.

#### **Government-Wide Financial Statements**

The government-wide financial statements provide readers with a broad overview of the Village of Gilberts' finances, in a matter similar to a private-sector business. The Statement of Net Position reports information on all of the Village of Gilberts' assets/deferred outflows and liabilities/deferred inflows, with the difference between the two reported as net position.

Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Village of Gilberts is improving or deteriorating. Consideration of other nonfinancial factors, such as changes in the Village of Gilberts' property tax base and the condition of the Village of Gilberts' infrastructure, is needed to assess the overall health of the Village of Gilberts.

# VILLAGE OF GILBERTS, ILLINOIS

## Management's Discussion and Analysis April 30, 2021

---

### USING THIS ANNUAL REPORT – Continued

#### Government-Wide Financial Statements - Continued

The Statement of Activities presents information showing how the Village's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave). Both of the government-wide financial statements distinguish functions of the Village of Gilberts that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Village of Gilberts include general government, public safety, public works, and parks and recreation. The business-type activities of the Village of Gilberts include waterworks and sewerage operations.

#### Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village of Gilberts, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Village of Gilberts can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

#### Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the Village of Gilberts' near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The Village of Gilberts maintains five individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund and TIF #2 Funds, which are considered major funds. Data from the other three governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

## Management's Discussion and Analysis April 30, 2021

---

### **USING THIS ANNUAL REPORT** – Continued

#### **Governmental Funds** – Continued

The Village of Gilberts adopts an annual appropriated budget for the General Fund. The Village also prepares a working budget to monitor day-to-day operations.

#### **Proprietary Funds**

The Village of Gilberts maintains only one proprietary fund, an enterprise fund. Enterprise funds are used to report the functions presented as business-type activities in the government-wide financial statements. The Village of Gilberts utilizes an enterprise fund to account for its water and wastewater utility operations. The proprietary fund financial statements provide financial information for the Utility Fund, which is considered to be a major fund of the Village of Gilberts.

#### **Fiduciary Funds**

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Village of Gilberts' own programs. The basis of accounting used for fiduciary funds is much like that used for proprietary funds.

#### **Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

#### **Other Information**

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Village of Gilberts' employee pension obligations and the budgetary comparison schedule for the General Fund. The combining statements referred to earlier in connection with non-major governmental funds and internal service funds are presented immediately following the required supplementary information on pensions.

The Village of Gilberts' investment in capital assets (for example, land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding is the largest portion of the Village's net position at 81.0% of total net position. The Village of Gilberts uses these capital assets to provide services to citizens. Because these assets are physical improvements, they cannot be liquidated and are not available for future spending. Although the Village of Gilberts' investment in its capital assets is reported net of related debt, other sources are needed to repay outstanding debt since the capital assets themselves cannot be liquidated to cover these liabilities.

## Management's Discussion and Analysis April 30, 2021

### GOVERNMENT-WIDE FINANCIAL ANALYSIS – continued

An additional portion, or 4.4%, of the Village of Gilberts' net position represents resources that are subject to external restrictions on how they may be used. The remaining 14.6%, or \$9,410,388, represents unrestricted net position and may be used to meet the government's ongoing obligations to citizens and creditors.

### GOVERNMENT-WIDE FINANCIAL ANALYSIS – Continued

Net position of the Village's governmental activities had an increase from the prior year due to an increase in revenues and slight decreases in expenses for the year. Revenues for the governmental activities totaled \$7.0 million which is a 17.5% increase due to higher amounts of operating grants, property taxes, income taxes and sales and uses taxes being received. Expenses for the governmental activities totaled \$5.2 million and decreased just slightly from the prior year by 0.8%. Expenses for governmental activities included \$1,081,948 of depreciation expense.

Net position of the business-type activities increased by less than one percent or \$73,072 from the prior year. Revenues for the business-type activities totaled \$1.9 million along with expenses for the business-type activities of \$1.8 million which includes \$489,199 of depreciation expense.

Revenues for the Village as a whole totaled \$8,920,921 (\$7,822,577 in the prior year), while expenses for the Village as a whole totaled \$7,016,768 (\$6,979,374 in the prior year).

#### Governmental Activities

Revenues for governmental activities this year were \$7,017,512. The cost of all governmental activities this year was \$5,186,431. The largest percentage of governmental expenses was to fund general government activities (33.9% of the \$5.2 million in total expenses for the governmental activities).

The following table graphically depicts the major revenue sources of the Village of Gilberts. The graph depicts very clearly the reliance of intergovernmental revenues, property taxes and charges for services to fund governmental activities. It also clearly identifies the smaller percentage the Village of Gilberts receives from utility taxes and other revenue sources. Except for property taxes, there was a small decline in most categories.

### FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the Village uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

#### **Governmental funds**

The focus of the Village's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the governmental funds reported combined ending fund balances of \$8.6 million, which is an increase of \$2.0 million from last year's total of \$6.6 million.

The General Fund reported an ending fund balance of \$5,806,349, an increase of 20.0% or \$967,875. This increase was due to lower expenditures and higher revenue than anticipated. Ending unassigned fund balance in the General Fund of \$2,697,125 represents 68.1% or approximately 8 months of operating expenditures.

The TIF #2 Fund, also a major fund, reported an increase of \$207,657 in fund balance, resulting in ending fund balance of \$569,085. Fund balance is restricted for future qualifying TIF #2 expenditures. Revenues for the year totaled \$973,442, including \$942,069 in incremental taxes. Expenditures in the fund totaled \$765,785, which are predominantly made up of principal and interest costs on the 2014 Tax Increment Revenue Notes. The notes are scheduled to be repaid on November 1, 2034.

#### **Proprietary funds**

The Village's proprietary fund provides the same type of information found in the government-wide financial statements, but in more detail.

The Village reports the Utility Fund as a major proprietary fund. This fund accounts for the provision of potable water and wastewater treatment services to the residents of the Village. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations and maintenance, financing and related debt service, billing and collection.

The Utility Fund net position increased by less than one percent from the prior year or \$73,072.

### GENERAL FUND BUDGETARY HIGHLIGHTS

The Village made two amendments to the original budgeted expenditures for the General Fund to reflect the spending of the Village more accurately. General Fund actual revenues for the year totaled \$4,966,738 compared to final budgeted revenues of \$4,822,161. The major portion of this increase was due to higher than anticipated intergovernmental revenues.

The General Fund actual expenditures for the year were less than budgeted by \$477,231 (\$3,963,418 actual compared to \$4,440,649 final budgeted). The general government and public safety functions were all lower than budgeted expenditures by \$120,932 and \$3,788, respectively, as management's awareness of budgetary constraints lead to reduced spending. Capital outlay expenditures were budgeted at \$498,096 for the year, with actual expenditures of \$129,174.

### CAPITAL ASSETS AND DEBT ADMINISTRATION

#### Capital Assets

The Village's investment in capital assets for its governmental and business type activities as of April 30, 2021 was \$59.0 million (net of accumulated depreciation). This investment in capital assets includes land, land improvements, buildings and improvements, vehicles, machinery and equipment, park facilities, roads, sidewalks, and bridges.

### CAPITAL ASSETS AND DEBT ADMINISTRATION – Continued

#### Debt Administration

At year-end, the Village had total debt of \$6,858,404 as compared to \$7,618,217 the previous year. The following is a comparative statement of outstanding debt:

	Long-Term Debt Outstanding

Additional information on the Village's debt can be found in Note 3 to the financial statements.

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The Village's elected and appointed officials considered many factors when setting the fiscal year 2021 budget, tax rates, and fees that will be charged for its governmental and business-type activities. One of those factors is the economy. The Village is faced with a similar economic environment as many of the other local municipalities are faced with, including inflation, unemployment rates, and a slow residential housing market. Budget expenditures for 2022 are expected to remain approximately the same; 2021 being \$4.34 million and 2022 projected at \$4.5 million in the General Fund.

In March 2020, the World Health Organization declared the COVID-19 virus a public health emergency. As of the date of this report, the extent of the impact of COVID-19 on the Village's operations and financial position cannot be determined.

#### REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Village of Gilberts' finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be directed to Office of the Finance Director, Village of Gilberts, 87 Galligan Road, Gilberts, IL 60136.

## Notes to the Financial Statements

April 30, 2021

---

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Village of Gilberts (Village), Illinois, incorporated in 1890, is a municipal corporation governed by an elected president and six-member Board of Trustees. The Village's major operations include police safety, highway and street maintenance and reconstruction, building code enforcement, public improvements, economic development, planning and zoning, water and sanitation, and general administrative services.

The government-wide financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant of the Village's accounting policies established in GAAP and used by the Village are described below.

#### REPORTING ENTITY

The Village's financial reporting entity comprises the following:

Primary Government:	Village of Gilberts
---------------------	---------------------

In determining the financial reporting entity, the Village complies with the provisions of GASB Statement No. 61, "The Financial Reporting Omnibus – an Amendment of GASB Statements No. 14 and No. 34," and includes all component units that have a significant operational or financial relationship with the Village. Based upon the criteria set forth in the GASB Statement No. 61, there are no component units included in the reporting entity.

#### Police Pension Employees Retirement System

The Village's sworn police employees participate in the Police Pension Employees Retirement System (PPERS). PPERS functions for the benefit of these employees and is governed by a five-member pension board. The pension board consists of two members appointed by the Village President, one elected member by pension beneficiaries and two elected members are active police employees. The participants are required to contribute a percentage of salary as established by state statute and the Village is obligated to fund all remaining PPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of contribution levels. Although it is legally separate from the Village, the PPERS is reported as if it were part of the primary government because its sole purpose is to provide retirement benefits for the Village's police employees. The PPERS is reported as a pension trust fund.

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

#### BASIS OF PRESENTATION

##### Government-Wide Statements

The Village's basic financial statements include both government-wide (reporting the Village as a whole) and fund financial statements (reporting the Village's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. The Village's general government, public safety, public works, and parks and recreation services are classified as governmental activities. The Village's utility services are classified as business-type activities.

In the government-wide Statement of Net Position, both the governmental and business-type activities columns are: (a) presented on a consolidated basis by column, and (b) reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Village's net position is reported in three parts: net invested in capital assets; restricted; and unrestricted. The Village first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the Village's functions and business-type activities (general government, public safety, public works, parks and recreation, utility, etc.). The functions are supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, which include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

The net costs (by function or business-type activity) are normally covered by general revenue (property taxes, sales and use taxes, intergovernmental revenues, investment income, etc.).

The Village does not allocate indirect costs. An administrative service fee is charged by the General Fund to the other operating funds that is eliminated like a reimbursement (reducing the revenue and expense in the General Fund) to recover the direct costs of General Fund services provided (finance, personnel, purchasing, legal, technology management, etc.).

This government-wide focus is more on the sustainability of the Village as an entity and the change in the Village's net position resulting from the current year's activities.

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

#### BASIS OF PRESENTATION – Continued

##### Fund Financial Statements

The financial transactions of the Village are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets/deferred outflows, liabilities/deferred inflows, fund equity, revenues and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. Nonmajor funds by category are summarized into a single column. GASB Statement No. 34 sets forth minimum criteria (percentage of the assets/deferred outflows, liabilities/deferred inflows, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The Village electively added funds, as major funds, which either had debt outstanding or specific community focus. The nonmajor funds are combined in a column in the fund financial statements. A fund is considered major if it is the primary operating fund of the Village or meets the following criteria:

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The various funds are reported by generic classification within the financial statements. The following fund types are used by the Village:

##### Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Village:

*General Fund* is the general operating fund of the Village. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund is a major fund.

*Special revenue funds* are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The Village maintains two nonmajor special revenue funds, the Motor Fuel Tax Fund and the Community Days Fund.

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

#### BASIS OF PRESENTATION – Continued

#### Fund Financial Statements – Continued

#### Governmental Funds – Continued

*Capital projects funds* are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by business-type/proprietary funds). The Village maintains one major capital projects fund, the TIF #2 Fund, which is used to account for activities associated with the redevelopment within the Tax Increment Financing District #2. The Village also maintains two nonmajor capital project funds, the TIF #1 Fund and the Road Improvement Fund.

#### Proprietary Funds

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary fund of the Village:

*Enterprise funds* are required to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy designed to recover similar costs.

The Village maintains one major enterprise fund, the Utility Fund, which is used to account for the provision of water and wastewater treatment services to the residents of the Village. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations and maintenance, financing and related debt service, billing and collection.

#### Fiduciary Funds

Fiduciary funds are used to report assets held in a trustee or custodial capacity for others and therefore are not available to support Village programs. The reporting focus is on net position and changes in net position and is reported using accounting principles similar to proprietary funds.

*Pension trust funds* are used to account for assets held in a trustee capacity for pension benefit payments. The Police Pension Fund accounts for the accumulation of resources to be used for disability and retirement annuity payments to employees covered by the plan.

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

#### BASIS OF PRESENTATION – Continued

#### Fund Financial Statements – Continued

#### Fiduciary Funds – Continued

*Custodial funds* are used to account for assets held by the Village in a purely custodial capacity. The Special Services Area #9 Fund is used to account for debt service payments made by property holders relative to Special Service Area Bonds issued. The Special Services Area #15 Fund is used to account for debt service payments made by property holders relative to Special Service Area Bonds issued. The Special Services Area #24 Fund is used to account for debt service payments made by property holders relative to Special Service Area Bonds issued. The Special Services Area #25 Fund is used to account for debt service payments made by property holders relative to Special Service Area Bonds issued.

The Village's fiduciary funds are presented in the fiduciary fund financial statements by type (pension trust and custodial). Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, pension participants, etc.) and cannot be used to address activities or obligations of the Village, these funds are not incorporated into the government-wide statements.

#### MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied.

#### Measurement Focus

On the government-wide Statement of Net Position and the Statement of Activities, both governmental and business-type activities are presented using the economic resources measurement focus as defined below.

In the fund financial statements, the “current financial resources” measurement focus or the “economic resources” measurement focus is used as appropriate.

All governmental funds utilize a “current financial resources” measurement focus. Only current financial assets/deferred outflows and liabilities/deferred inflows are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

# VILLAGE OF GILBERTS, ILLINOIS

## Notes to the Financial Statements

April 30, 2021

---

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

#### MEASUREMENT FOCUS AND BASIS OF ACCOUNTING – Continued

##### Measurement Focus – Continued

All proprietary, pension trust, and custodial funds utilize an “economic resources” measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets/deferred outflows and liabilities/deferred inflows (whether current or noncurrent) associated with their activities are reported. Proprietary and pension trust fund equity is classified as net position.

Custodial funds are not involved in the measurement of results of operations; therefore, measurement focus is not applicable to them.

##### Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability/deferred inflow is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities/deferred inflows resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when “measurable and available.” Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year-end. The Village recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70.

A sixty-day availability period is used for revenue recognition for all other governmental fund revenues. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are recognized when due.

In applying the susceptible to accrual concept under the modified accrual basis, those revenues susceptible to accrual are property taxes, sales and use taxes, franchise taxes, licenses, interest revenue, and charges for services. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash.

All proprietary, pension trust and custodial funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

#### MEASUREMENT FOCUS AND BASIS OF ACCOUNTING – Continued

##### Basis of Accounting – Continued

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Village's enterprise funds are charges to customers for sales and services. The Village also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

#### ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITIONS OR EQUITY

##### Cash and Investments

Cash and cash equivalents on the Statement of Net Position are considered to be cash on hand, demand deposits, cash with fiscal agent. For the purpose of the proprietary funds "Statement of Cash Flows," cash and cash equivalents are considered to be cash on hand, demand deposits, cash with fiscal agent, and all highly liquid investments with an original maturity of three months or less.

Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. For investments, the Village categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

##### Receivables

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivables balances for governmental activities include property taxes, sales and use taxes, franchise taxes, and grants. Business-type activities report utility charges as their major receivables.

##### Prepays

Prepays are valued at cost, which approximates market. The cost of governmental fund-type prepaids are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaids in both the government-wide and fund financial statements.

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

#### ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITIONS OR EQUITY – Continued

##### Interfund Receivables, Payables and Activity

Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

##### Capital Assets

Capital assets purchased or acquired with an original cost of \$10,000 or more, depending on asset class, are reported at historical cost or estimated historical cost. Contributed assets are reported at acquisition value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. General capital assets are long-lived assets of the Village as a whole. Infrastructure such as streets, traffic signals and signs are capitalized. The valuation basis for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement costs.

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation bases for proprietary fund capital assets are the same as those used for the general capital assets. Donated capital assets are capitalized at estimated acquisition value on the date donated.

Depreciation on all assets is computed and recorded using the straight-line method of depreciation over the following estimated useful lives:

Land Improvements	15 - 20 Years
Buildings and Structures	10 - 45 Years
Machinery and Equipment	3 - 30 Years
Infrastructure	20 - 50 Years

##### Compensated Absences

The Village accrues accumulated unpaid vacation and associated employee-related costs when earned (or estimated to be earned) by the employee. In accordance with GASB Statement No. 16, no liability is recorded for nonvesting accumulation rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulated sick leave that is estimated to be taken as “terminal leave” prior to retirement.

All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

##### Deferred Outflows/Inflows of Resources

Deferred outflow/inflow of resources represents an acquisition/reduction of net position that applies to a future period and therefore will not be recognized as an outflow of resources (expense)/inflow of resources (revenue) until that future time.

##### Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses at the time of issuance.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITIONS OR EQUITY – Continued

##### Net Position

In the government-wide financial statements, equity is classified as net position and displayed in three components:

Net Investment in Capital Assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted – Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislations.

Unrestricted – All other net positions balances that do not meet the definition of “restricted” or “net invested in capital assets.”

### NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

#### BUDGETARY INFORMATION

Budgets are adopted on a basis consistent with generally accepted accounting principles. The level of control where expenditures may not exceed the budget is the fund level of activity. All annual budgets lapse at fiscal year-end.

All departments of the Village submit requests for budgets to the Finance Department so that a budget may be prepared. The budget is prepared by fund, function, and activity, and includes information on the past year, current year estimates, and requested budgets for the next fiscal year.

The proposed budget is presented to the governing body for review. The Board holds public hearings and may add to, subtract from, or change budgeted amounts, but may not change the form of the budget.

Management is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the Board. Expenditures may not legally exceed budgeted appropriations at the fund level. During the year, supplementary appropriations were necessary.

**DEPOSITS AND INVESTMENTS**

The Village maintains a cash and investment pool that is available for use by all funds except the pension trust fund. Each fund type's portion of this pool is displayed on the financial statements as "cash and investments." In addition, investments are separately held by several of the Village's funds.

Permitted Deposits and Investments – Statutes authorize the Village to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, and the Illinois Funds. Pension funds may also invest in certain non-U.S. obligations, mortgages, veteran's loans, life insurance company contracts, money market mutual funds and common and preferred stocks.

The deposits and investments of the Pension Fund are held separately from those of other Village funds. Statutes authorize the Pension Fund to make deposits/invest in interest bearing direct obligations of the United States of America; obligations that are fully guaranteed or insured as to the payment of principal and interest by the United States of America; bonds, notes, debentures, or similar obligations of agencies of the United States of America; savings accounts or certificates of deposit issued by banks or savings and loan associations chartered by the United States of America or by the State of Illinois, to the extent that the deposits are insured by the agencies or instrumentalities of the federal government; credit unions, to the extent that the deposits are insured by the agencies or instrumentalities of the federal government; State of Illinois bonds; pooled accounts managed by the Illinois Funds Market Fund (Formerly known as IPTIP, Illinois Public Treasurer's Investment Pool), or by banks, their subsidiaries or holding companies, in accordance with the laws of the State of Illinois; bonds or tax anticipation warrants of any county, township, or municipal corporation of the State of Illinois; direct obligations of the State of Israel; money market mutual funds managed by investment companies that are registered under the Federal Investment Company Act of 1940 and the Illinois Securities Law of 1953 and are diversified, open-ended management investment companies, provided the portfolio is limited to specified restrictions; general accounts of life insurance companies; and separate accounts of life insurance companies and mutual funds, the mutual funds must meet specific restrictions, provided the investment in separate accounts and mutual funds does not exceed ten percent of the Pension Fund's plan net position; and corporate bonds managed through an

investment advisor, rated as investment grade by one of the two largest rating services at the time of purchase. Pension Funds with plan net position of \$2.5 million or more may invest up to forty-five percent of plan net position in separate accounts of life insurance companies and mutual funds. Pension Funds with plan net position of at least \$5 million that have appointed an investment advisor, may through that investment advisor invest up to forty-five percent of the plan net position in common and preferred stocks that meet specific restrictions. In addition, Pension Funds with plan net position of at least \$10 million that have appointed an investment advisor, may invest up to fifty percent of its net position in common and preferred stocks and mutual funds that meet specific restrictions effective July 1, 2011 and up to fifty-five percent effective July 1, 2012.

Illinois Funds is an investment pool managed by the Illinois public Treasurer's Office which allows governments within the State to pool their funds for investment purposes. The Illinois Funds is not registered with the SEC as an investment company. Investments in Illinois Funds are valued at the share price, the price for which the investment could be sold.

##### **Village – Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk**

*Deposits and Investments.* At year-end, the carrying amount of the Village's deposits for governmental and business-type activities totaled \$4,826,872 and the bank balances totaled \$4,919,480. In addition, the Village has \$9,080,718 invested in the Illinois Funds at year-end, which are measured at net asset value determined by the pool.

*Interest Rate Risk.* Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the Village limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for short and long-term cash flow needs while providing a reasonable rate of return based on the current market. The maturity of the Village's investments in the Illinois Funds is less than one year.

*Credit Risk.* Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Village limits its exposure to credit risk by primarily investing in external investment pools. At year-end, the Village's investment in the Illinois Funds was rated AAAM by Standard & Poor's.

*Custodial Credit Risk.* In the case of deposits, this is the risk that in the event of a bank failure, the Village's deposits may not be returned to it. The Village's investment policy requires pledging of collateral for all bank balances in excess of federal depository insurance, with the collateral held by the Village, an independent third-party, or the Federal Reserve Bank in the Village's name. At year-end \$505,649 of the bank balance of the deposits was not covered by federal depository or equivalent insurance.

#### Village – Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk – Continued

*Custodial Credit Risk – Continued.* For an investment, this is the risk that in the event of the failure of the counterparty, the Village will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Village's investment policy does not address this risk. To limit its exposure, the Village requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held by an independent third-party custodian and evidenced by safekeeping receipts and a written custodial agreement. At year-end, the Village's investment in the Illinois Funds is not subject to custodial credit risk.

*Concentration Risk.* This is the risk of loss attributed to the magnitude of the Village's investment in a single issuer. The Village's investment policy requires diversification of investments to avoid unreasonable risk. Furthermore, concentration in short-term corporation obligations will not exceed 90% of the limit contained in Illinois law. At year-end, the Village does not have any investments over 5 percent of the total cash and investments portfolio (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

#### Police Pension Fund – Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk

*Deposits.* At year-end, the carrying amount of the Police Pension Fund's deposits totaled \$352,636 and the bank balances totaled \$352,636.

*Investments.* The Fund has the following investment fair values and maturities:

#### Police Pension Fund – Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk – Continued

*Investments – Continued.* The Fund has the following recurring fair value measurements as of April 30, 2021:

Investments by Fair Value Level	Total	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Debt Securities				
U.S. Treasury Securities	\$ 899,223	899,223	-	-

Total Investments by Fair Value Level	4,652,731	3,328,565	1,324,166	-

Debt Securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

*Interest Rate Risk.* In accordance with its investment policy, the Fund limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for all reasonably anticipated operating requirements while providing a reasonable rate of return based on the current market.

*Credit Risk.* The Fund limits its exposure to credit risk by primarily investing in U.S. Treasuries and Agencies and equity mutual funds. At year-end, the funds invested in the Corporate Bonds are rated Aa2 to Baa3 by Moody's.

*Custodial Credit Risk.* The Fund's investment policy does not limit custodial credit risk for deposits. At year-end, the entire bank balance of deposits was covered by collateral, federal depository or equivalent insurance.

For investments, the Fund's investment policy requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held by an independent third-party custodian and evidenced by safekeeping receipts.

### NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

#### DEPOSITS AND INVESTMENTS – Continued

#### Police Pension Fund – Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk – Continued

*Concentration Credit Risk.* The Fund's investment policy requires diversification of investment to avoid unreasonable risk but does not establish specific maximum portfolio percentages. Specifically, the fund's investment policy states the following target asset allocation guidelines shall be followed: equities at 10%, fixed income securities at 85% and cash at 5%. At year end, the Fund's investments are within range of the target allocations described above. In addition to the securities and fair values listed above, the Fund also has \$2,429,342 invested in mutual funds. At year-end, the Fund has no investments over 5 percent of net plan position available for retirement benefits (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

The Fund's investment policy in accordance with Illinois Compiled Statutes (ILCS) establishes the following target allocation across asset classes:

<u>Asset Class</u>	<u>Target</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed Income	55.0%	4.8%
Equities	45.0%	7.8%
Cash and Cash Equivalents	0.0%	0.0%

Illinois Compiled Statutes (ILCS) limit the Fund's investments in equities, mutual funds and variable annuities to 65%. Securities in any one company should not exceed 5% of the total fund. The blended asset class is comprised of all other asset classes to allow for rebalancing the portfolio.

The long-term expected rate of return on the Fund's investments was determined using an asset allocation study conducted by the Fund's investment management consultant in May 2021 in which best-estimate ranges of expected future real rates of return (net of pension plan investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding the expected inflation. Best estimates or arithmetic real rates of return for each major asset class included in the Fund's target asset allocation as of April 30, 2021 are listed in the table above.

#### Rate of Return

For the year ended April 30, 2021, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 19.55%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

#### PROPERTY TAXES

Property taxes for 2020 attach as an enforceable lien on January 1 on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by Kane County and are payable in two installments, on or about June 1 and September 1. The County collects such taxes and remits them periodically.

**Special Service Area Bonds**

Special service area bonds outstanding as of the date of this report totaled \$42,790,000. These bonds are not an obligation of the Village and are secured by the levy of annual tax on the real property within the special service area. The Village is in no way liable for repayment but is only acting as agent for the property owners in levying and collecting the tax and forwarding the collections to bondholders. Special service area bonds outstanding are comprised of the following as of April 30, 2021:

Special Service Area #9	\$ 12,055,000
Special Service Area #15	9,335,000
Special Service Area #24	8,279,000
Special Service Area #25	13,121,000

### NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

#### NET POSITION/ FUND BALANCE – Continued

##### Fund Balance Classifications – Continued

*Nonspendable Fund Balance.* Consists of resources that cannot be spent because they are either: a) not in a spendable form; or b) legally or contractually required to be maintained intact.

*Restricted Fund Balance.* Consists of resources that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

*Committed Fund Balance.* Consists of resources constrained (issuance of an ordinance) to specific purposes by the government itself, using its highest level of decision-making authority, the Board of Trustees; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.

*Assigned Fund Balance.* Consists of amounts that are constrained by the Board of Trustees' intent to be used for specific purposes but are neither restricted nor committed. Intent is expressed by a) the Board of Trustees itself or b) a body or official to which the Board of Trustees has delegated the authority to assign amounts to be used for specific purposes. The Village's highest level of decision-making authority is the Board of Trustees, who is authorized to assign amounts to a specific purpose.

*Unassigned Fund Balance.* Consists of residual net resources of a fund that has not been restricted, committed, or assigned within the General Fund and deficit fund balances of other governmental funds.

*Minimum Fund Balance Policy.* The Village's policy manual states that the General Fund should maintain a minimum unrestricted fund balance equal to no less than three months and no more than six months of budgeted operating expenditures. Fund balances in excess of said levels may be transferred to other funds or the capital projects at the discretion of the Board.

### NOTE 4 – OTHER INFORMATION

#### RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; natural disasters; employee health; and injuries to the Village's employees. In order to protect against these risks, the Village is a member of the Intergovernmental Personnel Benefit Cooperative (IPBC) and also purchases private insurance.

### NOTE 4 – OTHER INFORMATION – Continued

#### RISK MANAGEMENT – Continued

##### Intergovernmental Personnel Benefit Cooperative (IPBC)

Risks for medical and death benefits for employees and retirees are provided for through the Village's participation in the Intergovernmental Personnel Benefit Cooperative (IPBC). IPBC acts as an administrative agency to receive, process and pay such claims as may come within the benefit program of each member. IPBC maintains specific reinsurance coverage for claims in excess of \$50,000 per individual employee participant. The Village pays premiums to IPBC based upon current employee participation and its prior experience factor with the pool. Current year overages or underages for participation in the pool are adjusted into subsequent years' experience factor for premiums. The Village enrolled in IPBC beginning April 1, 2014. Settlements did not exceed insurance coverage in any of the past three fiscal years.

#### CONTINGENT LIABILITIES

##### Financial Impact from COVID-19

In March 2020, the World Health Organization declared the COVID-19 virus a public health emergency. As of the date of this report, the extent of the impact of COVID-19 on the Village's operations and financial position cannot be determined.

##### Litigation

The Village is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the Village's attorney, the resolution of these matters will not have a material adverse effect on the financial condition of the Village.

##### Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Village expects such amounts, if any, to be immaterial.

#### EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLANS

The Village contributes to three defined benefit pension plans, the Illinois Municipal Retirement Fund (IMRF), a defined benefit agent multiple-employer public employee retirement system, the Sheriff's Law Enforcement Personnel Fund (SLEP), which is administered by the IMRF, and the Police Pension Plan that is a single-employer pension plan. Separate financial statements for the Police Pension Plan can be obtained by writing the Village at 87 Galligan Road, Gilberts, Illinois 60136. IMRF does issue a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole, but not by individual employer. That report may be obtained on-line at [www.imrf.org](http://www.imrf.org).

#### EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLANS – Continued

The benefit, benefit levels, employee contributions, and employer contributions are governed by Illinois Compiled Statutes (ILCS) and can only be amended by the Illinois General Assembly.

The aggregate amount of pension expense recognized for the two pension plans is:

	Pension Expenses	Net Pension Liabilities	Deferred Outflows	Deferred Inflows
IMRF	\$ 74,740	463,818	198,472	189,838
Police Pension	380,869	1,055,534	731,003	1,099,805

#### Illinois Municipal Retirement Fund (IMRF)

##### Plan Descriptions

*Plan Administration.* All employees (other than those covered by the Police Pension Plan) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

*Benefits Provided.* IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

IMRF provides two tiers of pension benefits. Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

*Benefits Provided – Continued.* Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

*Plan Membership.* As of December 31, 2020, the measurement date, the following employees were covered by the benefit terms:

Inactive Plan Members Currently Receiving Benefits	11
Inactive Plan Members Entitled to but not yet Receiving Benefits	14
Active Plan Members	<u>17</u>
Total	<u><u>42</u></u>

*Contributions.* As set by statute, the Village's Regular Plan Members are required to contribute 4.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. For the year-ended April 30, 2021, the Village's contribution was 12.08% of covered payroll.

*Net Pension Liability.* The Village's net pension liability was measured as of December 31, 2020. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

*Actuarial Assumptions.* The total pension liability was determined by an actuarial valuation performed, as of December 31, 2020, using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Fair Value
Actuarial Assumptions	
Interest Rate	7.25%
Salary Increases	2.85% to 13.75%
Cost of Living Adjustments	2.25%
Inflation	2.25%

For nondisabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

##### Discount Rate

The discount rate used to measure the total pension liability was 7.25%, the same as prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that Village contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all project future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

##### Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of the Village calculated using the discount rate as well as what the Village's net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

**Plan Descriptions**

*Plan Administration.* The Police Pension Plan is a single-employer defined benefit pension plan that covers all sworn police personnel. The defined benefits and employee and minimum employer contribution levels are governed by Illinois Compiled Statutes (40 ILCS 5/3-1) and may be amended only by the Illinois legislature. The Village accounts for the Fund as a pension trust fund. The Fund is governed by a five-member pension board. The pension board consists of two members appointed by the Village President, one elected member by pension beneficiaries and two elected members are active police employees.

*Plan Membership.* At April 30, 2021, the measurement date, membership consisted of the following:

Inactive Plan Members Currently Receiving Benefits	-
Inactive Plan Members Entitled to but not yet Receiving Benefits	2
Active Plan Members	<u>9</u>
Total	<u><u>11</u></u>

*Benefits Provided.* The following is a summary of the Police Pension Plan as provided for in Illinois State Statutes.

The Police Pension Plan provides retirement benefits through two tiers of benefits as well as death and disability benefits. Covered employees hired before January 1, 2011 (Tier 1), attaining the age of 50 or older with 20 or more years of creditable service are entitled to receive an annual retirement benefit of ½ of the salary attached to the rank held on the last day of service, or for one year prior to the last day, whichever is greater. The annual benefit shall be increased by 2.5 percent of such salary for each additional year of service over 20 years up to 30 years, to a maximum of 75 percent of such salary. Employees with at least eight years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit. The monthly benefit of a police officer who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3 percent of the original pension and 3 percent compounded annually thereafter.

#### Plan Descriptions – Continued

*Benefits Provided – Continued.* Covered employees hired on or after January 1, 2011 (Tier 2), attaining the age of 55 or older with 10 or more years of creditable service are entitled to receive an annual retirement benefit equal to the average monthly salary obtained by dividing the total salary of the police officer during the 48 consecutive months of service within the last 60 months of service in which the total salary was the highest by the number of months of service in that period. Police officer salary for the pension purposes is capped at \$106,800, plus the lesser of ½ of the annual change in the Consumer Price Index or 3 percent compounded. The annual benefit shall be increased by 2.5 percent of such a salary for each additional year of service over 20 years up to 30 years to a maximum of 75 percent of such salary. Employees with at least 10 years may retire at or after age 50 and receive a reduced benefit (i.e., ½ percent for each month under 55). The monthly benefit of a Tier 2 police officer shall be increased annually at age 60 on the January 1<sup>st</sup> after the police officer retires, or the first anniversary of the pension starting date, whichever is later. Noncompounding increases occur annually, each January thereafter. The increase is the lesser of 3 percent or ½ of the change in the Consumer Price Index for the proceeding calendar year.

*Contributions.* Covered employees are required to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plan and the administrative costs as actuarially determined by an enrolled actuary. However, effective January 1, 2011, ILCS requires the Village to contribute a minimum amount annually calculated using the projected unit credit actuarial cost method that will result in the funding of 90% of the past service cost by the year 2040. For the year-ended April 30, 2021, the Village's contribution was 49.48% of covered payroll.

*Concentrations.* At year-end, the Pension Plan does not have any investments over 5 percent of net plan position available for retirement benefits (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

**Actuarial Assumptions**

The total pension liability was determined by an actuarial valuation performed, as of April 30, 2021, using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Fair Value
Actuarial Assumptions	
Interest Rate	5.00%
Salary Increases	3.75% - 6.27%
Cost of Living Adjustments	3.25%
Inflation	2.25%

Mortality rates were based on the assumption study prepared by an independent actuary for police in 2016. These rates are experience weighted with the raw rates as developed in the RP-2014 study, with blue collar adjustment and improved generationally using MP-2016 improvement rates.

**Discount Rate**

The discount rate used to measure the total pension liability was 5.00%, the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that Village contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all project future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

### Notes to the Financial Statements

April 30, 2021

---

#### NOTE 4 – OTHER INFORMATION – Continued

##### **OTHER POST-EMPLOYMENT BENEFITS**

The Village has evaluated its potential other post-employment benefits liability. Former employees who choose to retain their rights to health insurance through the Village are required to pay 100% of the current premium. However, there is minimal participation. As the Village provides no explicit benefit, and there is minimal participation, there is no material implicit subsidy to calculate in accordance with GASB Statement No. 75, *Accounting and Financial Reporting for Post-Employment Benefits Other Than Pensions*. Therefore, the Village has not recorded a liability as of April 30, 2021.

##### **SUBSEQUENT EVENTS**

###### **American Rescue Plan Act**

On March 11, 2021, the American Rescue Plan Act of 2021 was signed into law. This act provides \$350 billion in funding for local governments. The Village has been allocated \$1,097,885 to be received in two installments. On September 1, 2021 the Village received their first installment of \$548,943.

###### **General Obligation Alternate Revenue Source Bonds**

On August 24, 2021, the Village issued \$4,090,000 of General Obligation Alternate Revenue Source Bonds, due in annual installments of \$215,000 to \$315,000, plus interest at 2.00% through December 15, 2036.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENTAL AUDITING STANDARDS**

October 11, 2021

The Honorable Village President  
Members of the Board of Trustees  
Village of Gilberts, Illinois

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Gilberts, Illinois, as of and for the year ended April 30, 2021, and the related notes to the financial statements, which collectively comprise the Village’s basic financial statements, and have issued our report thereon dated October 11, 2021.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Village’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Village’s internal control. Accordingly, we do not express an opinion on the effectiveness of the Village’s internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Village’s financial statements will not be prevented or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Village's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Village's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Village's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
