Liquid Sludge Disposal

Dear Mr. John Castillo,

Dahm Enterprises, Inc. proposes to furnish all skills, personnel and equipment to complete the liquid sludge hauling and disposal. Land application will adhere to all guidelines set by the IEPA. Dahm will supply an operating report following the project. Pumping equipment will be supplied along with personnel to operate. A disposal site will be included. The hauling will be done when weather permits. The project is an annual occurrence and is estimated to take 3-4 days. Volume of sludge is 650,000 gallons per occurrence. We understand this is an estimate and may be higher or lower.

Compensation for the hauling and land application of the liquid sludge will be \$.068/gallon. This price reflects a 3 year agreement. A load sheet will be used during hauling to record the amount of liquid hauled.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Bryan Dahm", is written over the "Respectfully submitted," text.
