- c. The Contractor being or becoming insolvent or bankrupt or ceasing to pay its debts as they mature or making an arrangement with or for the benefit of its creditors or consenting to or acquiescing in the

appointment of a receiver, trustee or liquidator for a substantial part of its property;

- d. A bankruptcy, winding up, reorganization, insolvency, arrangement or similar proceeding being instituted by the Contractor under the laws of any jurisdiction;
- e. A bankruptcy, winding up, reorganization, insolvency, arrangement or similar proceeding being instituted against the Contractor under the laws of any jurisdiction, which proceeding has not been dismissed within one hundred twenty (120) days;
- f. Any action or answer by the Contractor approving of, consenting to or acquiescing in any such proceeding; or
- g. The levy of any distress, execution or attachment upon the property of the Contractor which shall (or which reasonably might be expected to) substantially interfere with its performance under this Agreement

- b. The Municipality may seek and recover from the Contractor any unpaid amounts due the Municipality, all its substantiated costs for the failure of the Contractor to perform any obligation under this Agreement and all damages, whether based upon contract, negligence (including tort), warranty, delay or otherwise, arising out of the performance or nonperformance by the Contractor of its obligations under this Agreement, and whether incidental, consequential, indirect or punitive, resulting from the Breach.
- c. The Municipality may (A) call upon the sureties to perform their obligations under performance bond or (B) in the alternative, after releasing the sureties from their obligations under the performance bond or letter of credit, take over and perform the required services by its own devices, or may enter into a new contract for the required services, or any portion thereof, or may use such other methods as shall be required in the opinion of the Municipality for the performance of the required services.

- d. The Municipality shall have the power to proceed with any right or remedy granted by federal laws and laws of the State as it may deem best, including any suit, action or special proceeding in equity or at law for the specific performance of any covenant or agreement contained herein or for the enforcement of any proper legal or equitable remedy as the Municipality shall deem most effectual to protect the rights aforesaid, insofar as such may be authorized by law.
- e. Upon any such termination of this Agreement, the Contractor shall for a period requested by the Municipality, but not longer than six (6) months, continue to perform the contractual services during which period the Municipality shall continue to pay the Contractor its scheduled compensation.
- f. No remedy by the terms of this Agreement conferred upon or reserved to the Municipality is intended to be exclusive of any other remedy, but each and every such remedy shall be cumulative and shall be in addition to any other remedy given to the Municipality. No delay or omission to exercise any right or power accruing upon any Event of Default shall impair any such right or power or shall be construed to be a waiver of any such Event of Default or acquiescence therein, and every such right and power may be exercised from time to time and as often as may be deemed expedient. No waiver of any Event of Default shall extend to or shall affect any subsequent default or Event of Default or shall impair any rights or remedies consequent thereto.

This Section shall survive the voluntary or involuntary termination of this Agreement.

16. **Miscellaneous.**

- a. The Village shall cooperate with Contractor to provide account information and billing addresses for each residential property to be served by this Agreement.
- b. If any word, term, phrase, sentence or paragraph of this Agreement is held invalid, the validity of the remainder shall not be affected.
- c. This Agreement is not assignable by either party without the permission of the other, except that the Contractor may assign this Agreement to a corporate affiliate upon notice to the Village. In the event of a sale of Contractor to an unrelated third party, the Contractor may not assign this Agreement without the express written consent of the Village, which shall not be unreasonably withheld. In the event of an assignment, the terms and obligations of this Agreement shall be binding on the assignee and the respective rights, benefits and obligations of the parties shall inure to the benefit of the parties, and their respective heirs, successors and assigns.

h. Contractor agrees to maintain all records and documents related to this Agreement in accordance with the Freedom of Information Act, 5 ILCS 140 et seq. In addition, Contractor shall produce records which are responsive to a request received by the Village under the Freedom of Information Act so that the Village may provide records to those requesting them within the time frames required. If additional time is necessary to compile records in response to a request, Contractor shall so notify the Village, and if possible, the Village shall request an extension of time so as to comply with the Act. In the event that the Village is found to have not complied with the Freedom of Information Act due to Contractor's failure to produce documents or otherwise appropriately respond to a request under the Act, then Contractor shall indemnify and hold the Village harmless, and pay all amounts determined to be due including but not limited to fines, costs, attorneys' fees and penalties. Village and the producer of the Excluded Waste, if the producer can be readily identified; and (c) title to and liability for any Excluded Waste shall remain with the producer of the Excluded Waste, even if Contractor inadvertently collects or disposes of such Excluded Waste.

n. The Village will comply with any description of and/or procedures with respect to removal of contaminants or preparation of recyclable materials as reasonably provided by Contractor. If the Village fails to do so, Contractor may decline to collect such materials without being in breach of this Agreement. Customers and the Village must provide unobstructed access to the equipment on the scheduled collection day. The word "equipment" as used herein shall mean all containers used for the storage of non-hazardous solid waste.

s. Notwithstanding anything herein to the contrary, Contractor may pass through and the Village shall pay to Contractor any documented increases in and newly imposed taxes, governmental fees or other governmental charges assessed against or passed through to Contractor (other than income or real property taxes). Contractor must provide sixty (60) days prior written notice to the Village of any such tax, governmental fee, or other

governmental charge before the Contractor will be allowed to pass through any such increase to the Village. Contractor will assist the Village with notifying residents of any such increase.

t. Except for the payment of amounts owed hereunder, neither party hereto shall be liable for its failure to perform or delay in its performance hereunder due to contingencies beyond its reasonable control including, but not limited to, strikes, riots, compliance with laws or governmental orders, inability to access a container, fires, inclement weather and acts of God, and such failure shall not constitute a breach under the contract.

1) Project Overview

The Village of Gilberts (the "Village"), a community of 8,349 located in Kane County, Illinois is seeking one qualified and responsible company (the "Contractor") to provide refuse, recycling and yard waste collection services. The Contractor shall collect refuse, recyclable materials and yard waste once each week from every residence in the Village without regard to the number of refuse containers (with the exceptions listed in this RFP) and dispose of the same in an environmentally safe and responsible manner in accordance with the provisions of this RFP.

A) Exclusive Franchise Contract

It is the intent of the Village to award the Contractor the sole exclusive franchise contract, license, and privilege to collect refuse, recyclable material, and yard waste from every residence in the Village.

The Contractor shall be an independent contractor as to the work, notwithstanding that in certain respects the Contractor is required to follow the direction of the Village. The Contractor is in no respect an agent, servant or employee of the Village.

B) Exclusive Franchise Contract Exclusion

The exclusive franchise contract will exclude refuse, recycling, and yard waste collection for non-residential customers and any construction waste or recyclables, save for elsewhere specified in this RFP.

C) Term of Contract

The initial term of the franchise contract to collect refuse, recyclable material and yard waste from every residence in the Village shall be for an initial term of **five (5) years commencing on August 31, 2023 and ending August 31, 2028**. At the expiration of the Term of this Contract, the Village and Contractor may renegotiate a new agreement for a similar length of term. The Village shall be free to solicit requests for proposals from other contractors for a new exclusive franchise contract at the end of the term, and the Contractor shall be free to submit its proposal.

2) Scope of Service

A) Scope of Disposal

The Contractor shall furnish at its expense and without liability to the Village, all labor, equipment, vehicles, implements, materials and transportation necessary and proper to provide an adequate, uninterrupted and sanitary scavenger and curbside recycling service for the removal and disposal of all refuse, recyclable materials and yard waste during the term of the franchise contract and in accordance with the methods and procedures specified herein.

B) Examination of Service Area

It is the responsibility of the Contractor to be completely informed of all conditions under which service is to be performed, the service area, and all other relevant matters pertaining to the refuse, recycling and yard waste collection services as specified in this RFP. This includes, but is not limited to, type of housing, population density, roads, traffic patterns, required collection procedure, labor requirements, and other factors that would affect the execution and/or completion of the services covered by the specifications in this RFP.

As of February 2023, the Village has 2,705 active accounts. An estimated 900 additional accounts are expected to become active during the 5-year term.

C) Weekly Collection

The Village desires to establish a two-day schedule for the collection of refuse, recycling and yard waste from all residences. The Contractor shall provide waste collection services on Thursdays for Village residences South of Route 72. The Contractor shall provide collection services on Fridays for Village residences North of Route 72. The collection dates shall remain the same throughout the length of the contract. Written requests for a change of collection dates must be submitted for Village approval within sixty (60) days of the proposed change. The Village has sole discretion in the approval or disapproval of any proposed change. The Contractor shall publish a pending schedule at least once in a newspaper of general circulation within the Village and mail notification to each service address at a minimum of forty-five (45) days before any proposed change that is approved by the Village.

D) Point of Collection

Refuse, recyclable materials, and yard waste materials shall be collected from receptacles placed at the curb (or edge of pavement where there is no curb) of the public street in front of the residence to be served, or at other specific points as designated by the Village. Refuse and recyclable material from buildings owned or leased by the Village shall be collected from receptacles at a reasonably accessible location designated by the Village Administrator.

E) Collection Procedure

For more information regarding our method of collection being proposed, please refer to our operational approach tab.

1) Project Overview

The Village of Gilberts (the "Village"), a community of 8,349 located in Kane County, Illinois is seeking one qualified and responsible company (the "Contractor") to provide refuse, recycling and yard waste collection services. The Contractor shall collect refuse, recyclable materials and yard waste once each week from every residence in the Village without regard to the number of refuse containers (with the exceptions listed in this RFP) and dispose of the same in an environmentally safe and responsible manner in accordance with the provisions of this RFP.

A) Exclusive Franchise Contract

It is the intent of the Village to award the Contractor the sole exclusive franchise contract, license, and privilege to collect refuse, recyclable material, and yard waste from every residence in the Village.

The Contractor shall be an independent contractor as to the work, notwithstanding that in certain respects the Contractor is required to follow the direction of the Village. The Contractor is in no respect an agent, servant or employee of the Village.

B) Exclusive Franchise Contract Exclusion

The exclusive franchise contract will exclude refuse, recycling, and yard waste collection for non-residential customers and any construction waste or recyclables, save for elsewhere specified in this RFP.

C) Term of Contract

The initial term of the franchise contract to collect refuse, recyclable material and yard waste from every residence in the Village shall be for an initial term of **five (5) years commencing on August 31, 2023 and ending August 31, 2028**. At the expiration of the Term of this Contract, the Village and Contractor may renegotiate a new agreement for a similar length of term. The Village shall be free to solicit requests for proposals from other contractors for a new exclusive franchise contract at the end of the term, and the Contractor shall be free to submit its proposal.

2) Scope of Service

A) Scope of Disposal

The Contractor shall furnish at its expense and without liability to the Village, all labor, equipment, vehicles, implements, materials and transportation necessary and proper to provide an adequate, uninterrupted and sanitary scavenger and curbside recycling service for the removal and disposal of all refuse, recyclable materials and yard waste during the term of the franchise contract and in accordance with the methods and procedures specified herein.

B) Examination of Service Area

It is the responsibility of the Contractor to be completely informed of all conditions under which service is to be performed, the service area, and all other relevant matters pertaining to the refuse, recycling and yard waste collection services as specified in this RFP. This includes, but is not limited to, type of housing, population density, roads, traffic patterns, required collection procedure, labor requirements, and other factors that would affect the execution and/or completion of the services covered by the specifications in this RFP.

As of February 2023, the Village has 2,705 active accounts. An estimated 900 additional accounts are expected to become active during the 5-year term.

C) Weekly Collection

The Village desires to establish a two-day schedule for the collection of refuse, recycling and yard waste from all residences. The Contractor shall provide waste collection services on Thursdays for Village residences South of Route 72. The Contractor shall provide collection services on Fridays for Village residences North of Route 72. The collection dates shall remain the same throughout the length of the contract. Written requests for a change of collection dates must be submitted for Village approval within sixty (60) days of the proposed change. The Village has sole discretion in the approval or disapproval of any proposed change. The Contractor shall publish a pending schedule at least once in a newspaper of general circulation within the Village and mail notification to each service address at a minimum of forty-five (45) days before any proposed change that is approved by the Village.

D) Point of Collection

Refuse and recyclable material from buildings owned or leased by the Village shall be collected from receptacles at a reasonably accessible location designated by the Village Administrator.

E) Collection Procedure

The Contractor shall not allow garbage, refuse, recyclable materials or landscape waste to scatter nor spread as a result of the scavenger's service provided within the Village. Any garbage, refuse, recyclable materials or landscape waste spilled on the yard or street shall be picked up prior to leaving the site of collection. The Contractor shall carry on each collection vehicle not less than one broom and shovel to clean up any garbage, refuse, recyclable materials, or landscape waste spilled. The Contractor shall be responsible for any real and/or personal property damage caused by its employees, and or agents. Containers shall be replaced to the same locations as found after emptying and shall be replaced in the same condition. Containers, which have been substantially damaged through the fault of the Contractor, shall be replaced by the Contractor with containers of

OPERATIONAL APPROACH

Village of Gilberts Residential Operational Approach

MDC Environmental Services will continue providing complete and comprehensive solid waste, recycling and landscape waste collections for the residential units located within the Village of Gilberts. Our goal is simple - to consistently deliver outstanding customer service at a competitive price. Along with our sister companies, MDC provides refuse, recycling and yard waste services to over 600,000 households and businesses across Northern Illinois. We are confident that the Village will continue to receive complete satisfaction with regard to our services. The following outline and discussions represent our understanding, capabilities and methodology we maintain in performing continued services for the Village of Gilberts.

Our discussions are broken down into these nine (9) categories:

- I. Village of Gilberts Collection Program
- II. Residential General Routing
- III. Residential Equipment
- IV. Vehicle Maintenance Procedures
- V. Driver Qualifications
- VI. Service Implementation
- VII. Service Quality Assurance
- VIII. Emergency Contingency Plan
- IX. Recycling Capabilities & Materials

Village of Gilberts Residential Operational Approach

I. Village of Gilberts Collection Program

MDC will continue to provide refuse, recycling, and yard waste services to Village residents on Thursday and Friday each week.

A. **Unlimited/Limited Curbside Refuse & Recycling Collection Program**

The unlimited refuse program includes a 95-gallon refuse cart for weekly curbside collection of municipal waste. All municipal waste found outside the 95-gallon cart will be collected when properly prepared (plastic container or bag not to exceed 33 gallons or 50 pounds in weight). Every resident will receive a 95-gallon cart for refuse collection. Residents may opt for a smaller 65-gallon cart, by request. Additional carts will be available for an annual fee.

For the unlimited weekly curbside collection of recyclables, residents will receive a 65-gallon cart. Residents may request a change in the size of their recycling cart, a 95-gallon or 35-gallon cart will be made available to meet this request. Service includes weekly collection of bulk items (non-appliance) per week at no additional charge.

Limited option outlined under Appendix A-2: The limited program is similar except for that refuse placed at the curb will be limited to the 95 gallon cart provided. Recycling collection would remain as unlimited. It is the understanding of the Contractor that the Village will choose either the unlimited or limited program for the entirety of the contract term.

B. **Landscape Waste Collection**

Under the collection programs listed above, residents will receive weekly curbside collection of an unlimited amount of properly prepared bags, bundles or cans of yard waste during the season from April 1 through December 1st annually.

Grass clippings, leaves, twigs, garden debris, weeds, fruits, seeds, stalks, vines, bark and wood chips may be placed at the curb on the regularly scheduled pick up day in biodegradable paper bags or 32-gallon metal or plastic cans clearly identified for landscape waste only. Bags must be rolled and crimped closed and be easily lifted to waist height and not exceed 50lbs. Residents also have the option to rent a 95 gallon cart from MDC for an annual fee.

Village of Gilberts Residential Operational Approach

Brush and branches up to 6 inches must be bundled with twine (wire or plastic is not acceptable) 4' or less in length and 2' or less in diameter at the base and easily lifted to waist height. Yard waste does not include wood timbers, plastic edging, plant pots or trays, fertilizer or landscape material bags, landscape fabric, root sections, sand, gravel, sod, firewood or animal waste.

Fall Leaf Collection: MDC will provide fall leaf pick up from October 1st through December 15th each year at no additional cost. During this time an unlimited amount of properly prepared yard waste bags or containers will be collected.

C. Christmas Tree Collection

MDC Industries will provide free collection and disposal of Christmas trees throughout the month of January each year.

D. Bulk Items, Construction Debris & Oversized/Overweight Items

Unlimited refuse collection will include bulk items that one person can safely load into the collection vehicle. Bulk items include: boxes, barrels, crates, furniture, and similar items that do not fit into a proper container and can be collected/lifted by one driver without assistance. Exceptions include items which are banned from direct disposal into a landfill. (Appliances, tires, car batteries).

Each household will be allowed to set out small amounts of construction debris each week at no additional cost. Construction debris must be cut to no more than 4 feet in length and no larger than 2 feet in diameter. For the safety of the collector, all debris must be bagged or bundled not exceeding 45 pounds. Oversized/overweight items or large amounts will be collected at an additional cost. Oversized/overweight items are any single large or extra heavy item that will require the resident to schedule a special pick-up. An example of an oversized item is a piano or any item that requires two or more people to lift. Residents are required to call MDC to schedule a pick-up in advance.

E. White Goods

White goods are defined as follows:

Village of Gilberts Residential Operational Approach

Any domestic and/or commercial large appliance which contains CFC or HCFC refrigerant gas, PCB containing capacitors, mercury switches, or other hazardous components. Examples include, but are not limited to, refrigerators, freezers, air conditioners, ranges (both electric and gas), dehumidifiers, water heaters, furnaces, ovens, humidifiers, water softeners, trash compactors, and other similar large appliances.

MDC will provide collection of such items on a weekly basis with residents calling to schedule a special collection for an additional fee.

F. Village of Gilberts Facilities / Special Events

MDC will continue providing waste and recycling containers and collection services on a weekly basis for Village facilities. These services will be provided at no additional cost.

MDC will provide services for Village special events as listed in the RFP at no additional charge.

II. Residential General Routing

A. Village of Gilberts Service Routing

MDC will continue to provide refuse, recycling, and yard waste services to Village residents on Thursday and Friday each week.

B. Hours of Collection and Holiday Service

The Village can expect collection vehicles to arrive in town at 7:00 a.m. and remain until 3:00 p.m. to 4:00 p.m. in the afternoon. Extra collection vehicles will be supplied, as needed, when weather or traffic concerns indicate any route or routes will be substantially delayed.

During the week of a holiday, including holidays which fall on a Sunday, each succeeding collection day following a holiday will be serviced one day behind the regular schedule. There will be no household collection on Sunday. If a holiday falls on a Sunday, it will be observed on Monday, delaying service by one day for the remainder of the week.

Village of Gilberts Residential Operational Approach

MDC observes the following holidays:

- New Year's Day
- Memorial Day
- Independence Day
- Labor Day
- Thanksgiving Day
- Christmas Day

III. Residential Equipment

All equipment within the Village is uniformly painted, washed and maintained regularly to ensure a neat and clean appearance.

Collection vehicles are equipped with optional equipment to aid in both safety and efficiency. All vehicles are equipped with strobe type lights and rear view vision cameras for increased safety.

IV. Vehicle Maintenance Procedures

Village of Gilberts Residential Operational Approach

V. Driver Qualifications

A. Experience Requirements

Drivers chosen to perform for this contract must meet the following criteria:

1. Minimum of one (1) year experience in the operation of 50,000 lb. gross vehicle weight-rated waste collection vehicles.
2. Complete D.O.T. and C.D.L. certification.

B. Safety Training and Driver Certification

All MDC employees performing driving, maintenance, or labor functions are required to attend monthly safety meetings specific to their line of work. Personnel will receive training and follow-up reviews in:

Operational Procedures

Customer Interaction

Equipment Familiarization

Health and Safety Procedures

Defensive Driving Techniques

When drivers begin service in new areas, a minimum of two (2) weeks on-site training specific to that area is required to orient the driver. In addition, employees participate in an annual awards program sponsored by MDC which promotes constant awareness and ultimately safer and better quality service for our customers.

C. Driver Appearance

All employees are required to wear company issued uniforms while on duty. Uniforms will identify the employee's name, company affiliation, and be maintained in a neat and orderly appearance.

Village of Gilberts Residential Operational Approach

VI. Service Implementation

A. In-Town Supervisor Availability

MDC Environmental Services will continue utilizing a full-time supervisor to oversee and manage collections every week. Duties include assisting drivers in servicing their routes and being immediately available to customers who encounter any service problems. Resident questions or concerns are fielded promptly on the spot, drastically reducing many calls the Village may encounter.

VII. Service Quality Assurance

A. Office Procedures

MDC Environmental Services staffs its customer service and operations office from 8:00 a.m. to 4:30 p.m. Monday through Friday. Outside of the above stated times, we employ full voice mail capability to specific personnel or operational areas. Customer Service representatives are trained in the following areas:

1. Extra Service Requests
2. Acceptable & Non-acceptable Waste
3. Recycling Program Education
4. Yard Waste Rules & Regulations
5. Residential Billing Inquiries

B. Resident Complaint Resolution Process

MDC understands that sometimes residents will call in with complaints concerning the program, billing issues or missed collections. Residents are always treated with respect and if the complaint is concerning services, our designated foreman is called for immediate investigation.

Village of Gilberts Residential Operational Approach

It is company policy that if a call for a late set-out or missed collection comes in while our trucks are within the service area, we will make every effort to return the same day as the call is received. Any calls that are received after the collection vehicles have left the Village of Gilberts for the day will be scheduled for collection the next day.

C. Escalation Process for Complaints

In the event a complaint requires the response from someone other than a customer service representative, we have designed our customer service department to fall under the direct supervision of our Operations Manager and our District Manager. In the event of a serious complaint, MDC's Municipal Manager and District Manager are always available to handle such complaints.

MDC will work in partnership with the Village to be pro-active in reducing complaints by notifying residents of scheduled rate increases and scheduled program changes.

D. Billing Procedures

MDC will continue to invoice the Village on a monthly basis for the services provided. Senior citizens will be provided a 10% discount where the head of household is 65 years of age or older and/or disabled with the Village determining eligibility.

Village of Gilberts Residential Operational Approach

E. Drivers End of Day Service Review

Every morning drivers are required to meet with the Residential Supervisor. Drivers receive instructions on scheduled extra service requests for their route, any equipment changes, and special routing demands.

To ensure the highest level of service throughout the day, drivers must report in via radio whenever leaving their respective service area. Particular emphasis is placed on communications prior to finishing their route at the end of the day. By closely supervising the routes progress near its termination, adjustments can be made readily with adjoining routes to handle any late service requests, or cover routes which may be running late.

VIII. Emergency Contingency Plan

A. Public Health and Village Requests

In order to protect the public health, safety and welfare, MDC will respond to requests from the Village of Gilberts to collect debris left in unusual circumstances. We provide the necessary equipment and personnel to respond to your requests for an agreed upon rate for collection and disposal. MDC agrees to provide necessary collections in the event of a natural disaster in the Village of Gilberts (i.e. tornados, floods) when declared by the State or Federal Government.

B. Weather Considerations and Contingency Plans

In cases of severe weather, where service becomes problematic due to heavy snows, rains or wind damage, MDC Environmental Services has the resources to address and remedy the resulting waste related problems. Due to the high concentration of equipment we have operating in and around the Village, we are able to draw upon many other collection vehicles to assist the Village's residential units. We routinely make sure auxiliary personnel are available during the winter months, and as a matter of course maintain an adequate amount of spare collection vehicles.

Village of Gilberts Residential Operational Approach

IX. Recycling Capabilities & Materials

MDC Environmental Services will provide the Village of Gilberts with a recycling program that combines both paper and commingled material at the curbside for processing. **ASSUMPTIONS,
DEVIATIONS, &
EXCEPTIONS**

Assumptions, Deviations, & Exceptions

RRD Holding Company (“Contractor”) offers the following items to be incorporated into the resulting contract and as exceptions to the Request for Proposal for Residential Refuse, Recycling and Yard Waste Collection (the “RFP”) issued by the Village of Gilberts (the “Village”). Contractor’s proposal is subject to and contingent upon these exceptions. These items are intended to identify areas of concern and remain negotiable. Along with the exceptions is some explanation to provide the Village with Contractor’s thoughts behind such exceptions. Contractor’s bid submission is contingent upon and subject to the exceptions and objections contained herein. Specifically, Contractor objects, and does not agree, to any provision of the RFP to the extent such would require a penalty, fine, fee or forfeiture of a bond in the event that the parties are unable to agree on, and ultimately enter into a contract, the terms of this RFP after good faith negotiations, including the objections and exceptions contained herein. We appreciate your consideration and welcome the opportunity to work with you on reaching agreeable terms. Unless defined herein, capitalized terms shall have the meanings set forth in the RFP.

- (1) Contractor takes a general exception to any requirement of the RFP requiring confidential, proprietary or otherwise privileged information, including financials, of the Contractor. Contractor is a subsidiary of Waste Connections, Inc. (“WCN”). WCN is a publicly traded company whose shares trade on the New York Stock Exchange. Periodic and annual financial information is reported to the U.S. Securities and Exchange Commission (“SEC”). Audited financial information is provided in WCN’s annual Form 10-K and quarterly Form 10-Q filings with the SEC. Copies of WCN’s periodic and annual filings are available online at www.sec.gov. Separate financial statements are not prepared for Contractor. To the extent that the foregoing financial information does not satisfy the requirements in the RFP, Contractor takes exception to such requirements.
- (2) Contractor objects to Section 10(C)(1)(B) and would require that a breach that would allow for termination if not cured within 24 hours be revised to only a ‘material breach’ so that 1 missed pickup would not allow for the contract be terminated. Additionally, any notice of breach shall be sent to Contractor in writing and clearly specifying the alleged breach.
- (3) Contractor objects to any provision of the RFP, including but not limited to Section 10(C)(2) which would provide for penalties of liquidated damages.

Assumptions, Deviations, & Exceptions

- (4) Contractor objects to Section 10(D) and requires it be deleted in its entirety and replaced with the following or other mutually agreeable language (added language underlined):

“To the fullest extent permitted by law, the Contractor shall defend, indemnify and hold the Village, its officers, officials, employees, agents, consultants and volunteers harmless from and against any and all liability, claims and reasonable attorney's fees, costs and expenses of whatsoever kind and nature for injury to or death of any person or persons and for loss or damage to any property to the extent occurring in connection with or in any way incident to or arising out of the Service or performance of work or failure to perform under the terms of this Contract, including, but not limited to, any negligent or intentional acts or omissions of Contractor, or any employee, agent, representative or subcontractor of the Contractor. This obligation to indemnify shall survive the termination and/or expiration of this Agreement. Such obligation shall not be construed to negate, abridge or otherwise reduce any other right or obligation of indemnity which would otherwise exist as to any party or person described in this paragraph.”

- (5) Contractor objects to Section 10(E) to the extent it would require Contractor provide a surety in any form other than an annually renewable performance bond in the amount equal to the annual value of the Services.
- (6) Contractor objects to the phrase “change” in Section 10(F) and would require it be deleted in each instance and replaced with “material change”.
- (7) Contractor objects to Section 10(I) to the extent it would require Contractor provide access to any facility or site that is not owned, operated or controlled by Contractor. Additionally, Contractor may restrict certain entry onto its premises to ensure safety of all individuals.
- (8) Contractor objects to Section 10(L) to the extent it would require Contractor to deliver refuse to any other facility other than one operated and owned by MDC/Waste Connections. Contractor would entertain a discussion that would see MDC/Waste Connections transfer built and operated within the Village.
- (9) In addition to the terms set forth in the RFP, the following concepts need to be incorporated into the final form of the resulting contract:

Assumptions, Deviations, & Exceptions

- a. Notwithstanding anything herein to the contrary: (a) Contractor shall have no obligation to collect any material which is or contains, or which Contractor reasonably believes to be or contain, radioactive, volatile, corrosive, highly flammable, explosive, biomedical, infectious, biohazardous, toxic or hazardous material as defined by applicable federal, state or local laws or regulations (“Excluded Waste”); (b) if Contractor finds what reasonably appears to be discarded Excluded Waste, Contractor shall promptly notify the Village and the producer of the Excluded Waste, if the producer can be readily identified; and (c) title to and liability for any Excluded Waste shall remain with the producer of the Excluded Waste, even if Contractor inadvertently collects or disposes of such Excluded Waste.
- b. The Village must comply with any description of and/or procedures with respect to removal of contaminants or preparation of recyclable materials as reasonably provided by Contractor. If the Village fails to do so, Contractor may decline to collect such materials without being in breach of the contract. Contractor shall not be responsible for and has not made any representation regarding the ultimate recycling of such recyclable materials by any third party facilities.
- c. The rights granted to Contractor under the contract shall be exclusive. The Village may, in its sole discretion, enforce the exclusivity provisions of the contract against third-party violators, taking into account the cost of doing so and other factors. Contractor may independently enforce the exclusivity provisions of the contract against third-party violators, including, but not limited to, seeking injunctive relief and/or damages, and the Village shall use good-faith efforts to cooperate in such enforcement actions brought by Contractor. The Village shall use its best efforts to adopt ordinances, rules or regulations that have the effect of requiring third parties, including, without limitation, customers, to comply with the provisions of the contract, including, without limitation, the exclusive service rights granted to Contractor pursuant to the agreement.
- d. Except in the case of Contractor’ negligence or willful misconduct, Contractor shall not be liable for any damages to pavement, curbing, or other driving surface resulting from the weight of its trucks and equipment.

Assumptions, Deviations, & Exceptions

- e. Notwithstanding anything herein to the contrary, to the extent supplied by Contractor, in the event that a waste container becomes lost, unsightly, unsanitary, broken, or unserviceable because of the acts or omissions of the Village (excluding normal wear and tear), the Village will be charged for the resulting repairs or replacement and such amounts will be paid to Contractor upon demand.
- f. Any equipment furnished hereunder by Contractor shall remain the property of Contractor; however, the customers and the Village (as applicable) shall have care, custody and control of the equipment while at the service locations. Customers and the Village shall not overload (by weight or volume), move or alter the equipment, and shall use the equipment only for its proper and intended purpose. Customers and the Village must provide unobstructed access to the equipment on the scheduled collection day. The word "equipment" as used herein shall mean all containers used for the storage of non-hazardous solid waste.
- g. Notwithstanding anything herein to the contrary, Contractor may pass through and the Village shall pay to Contractor any documented increases in and newly imposed taxes, fees or other governmental charges assessed against or passed through to Contractor (other than income or real property taxes).
- h. Except for the payment of amounts owed hereunder, neither party hereto shall be liable for its failure to perform or delay in its performance hereunder due to contingencies beyond its reasonable control including, but not limited to, strikes, riots, compliance with laws or governmental orders, inability to access a container, fires, inclement weather and acts of God, and such failure shall not constitute a breach under the contract.
