Attn: Aaron Grosskopf

Hello Aaron,

Xylem Water Solutions USA, Inc. is pleased to provide a quote for the following equipment and services needed to retrofit the Barancik LS to Flygt Pumps.

The quotation includes the conversion of both (QTY 2) of your existing 4" Fairbanks Morse 15HP pumps to the 15HP 3153 Flygt pumps as described below:

Section 1 - N 3153HT ~466 15HP FM (Explosion Proof) 4" 460V w/ 50' cable

The N 3153 pumps come with Tungsten Carbide Seals and hard iron, non-clog N impeller, with a 1 year non-clog guarantee.

These pumps include a 5 year pro-rated warranty

These pumps come standard with internally recycled glycol cooling.

Pumps will come drilled ANSI / Existing Fairbanks Morse bolt-on guide brackets are NOT ANSI pattern.

Section 2 - Adapter Flange and Counter Weight

Existing elbows are 8" vs 4" pump discharge

We will utilize the existing Fairbanks Morse 4" to 8" adapter slide bracket adapter, but will fabricate an adapter spool to mate the Flygt Pump to the slide bracket adapter (bolt patterns do not match).

Flygt pumps are 465lbs ea vs. 650lb ea Fairbanks Morse pumps.

In order to avoid liftoff, we designed, will fabricate, and will attach a bolt on weight to connect to the bottom of the volute.

Section 3 - Startup

All materials will be shipped to Mokena for Assembly.

We will bring pumps to site for installation.

Installation will include the wiring in of miniCAS relays, checking rotation, checking amp draw, and ensuring proper seating

Section 4 - Lifting Chains

As the Flygt pumps are shorter, the lifting chains need to be swapped out for longer chains.

2 x 45' lifting chains and shackles are included in this quotation.

Pumps are currently available in 3-4 weeks after order. Allow an additional 2-3 weeks for fabricated parts and scheduling of startup

Total 5-7 weeks from time of order.
